Back To Square One:

Back to Square One Jackie Adams, 2022-11-15 I know what you're thinking How could I stay in a dysfunctional abusive relationship for twelve years with a man who despises me We now have an eleven year old son together Lewis For the first time my son has shoved me like all the times he seen his father Ray do It only takes one time for my own son to abuse me when we end up leaving Ray to go to my parent's house They happily take us in and soon I have a seasonal job at Farmer's Market Lewis and I have made new friends We're happier than we've ever been When I get the divorce papers and we go to court about visitation with Lewis I'm neither surprised nor saddened Lewis my son said he doesn't mind going to see his dad for visitation The only problem is I have to worry about Ray's new act of playing a good father figure role will wear off Will he start abusing Lewis since I'm not home to take his abuse personally In time Lewis and I situate to a healthier functional routine Lewis and I both have settled We're still happy and Ray has been on good terms with Lewis I feel so great that I dip my toes in the dating scene So when this handsome man named Luke asks me to go out to eat with him I agree to it I soon regret it though It has nothing to do with him and everything to do with me I'm not ready Luke takes this to heart and becomes the rejected madman Soon fires are starting all around us Businesses and places my friends and I go to catch flames I can't believe it when Luke has the audacity to show up at my work and threaten me about the fires Could he be the missing culprit behind them Will this dramatic chaos ever end so that my son and I can move on with our lives and find ourselves better situated to a healthier dynamic Did I make the biggest mistake thinking I could date without havoc

BACK TO SQUARE ONE AND RESTART ANEW DI HUA, 2015-02-15 The Standard Model of elementary particle physics which is based on Einstein's special theory of relativity involves about 20 constants arbitrarily adjusted to match experiments Likewise another Standard Model of cosmology which relies on Einstein's general theory of relativity has 15 freely specified constants Mainstream physicists cannot help but turn to abstract mathematics to draw up various strange theories String Theory Supersymmetry 11 dimensional Universe Singularity of Universe Big Bang etc None of these theories can offer tenable arguments let alone be justified by convincing experiments and observations The trouble is deep rooted in Einstein's relativity theory which is the common foundation of the two Standard Models Moreover the well known contradiction between Einstein's relativity theory and the quantum theory remains unsolved Einstein's theory of relativity originated from his Lorentz transformation which was a starting block in the Square One to initiate the development of theoretical physics since the beginning of the 20th century Detailed analysis reveals that the Lorentz transformation cannot provide invariance for classical Maxwell's electromagnetic field equation nor for electromagnetic wave propagation equation In contrast the Galilean transformation can do both Worse the Lorentz transformation itself was mistakenly deduced by Einstein The Galilean transformation without any postulate completely conforms to the principle of relativity The accusation against the Galilean transformation is a century old injustice The denial of the Galilean transformation was a fatal false step in the

square one from where the theoretical physics went in a wrong direction Today to pull the theoretical physics out of the quagmire we must return back to the square one and restart anew Indeed the author of this book appeals for an infrastructural reconstruction of the theoretical physics
