was Courage wisdom and friendship became their driving values as they went through hard times made close friends and accepted their new mission They were moving when they came across a nest of baby dinosaurs They wanted to help these amazing creatures find their way back to their parents The Dino Squad as they were called went on a dangerous trip where they had to cross raging rivers and stay away from hungry pterosaurs As they faced each problem they got stronger and closer as friends This made their goal of teaching courage knowledge and friendship even more important One fateful night as they sat around a campfire they saw a shaky way back to their own time They asked Trixie an old and wise Triceratops for advice She told them how to keep the link stable They needed three special gems called the gems of Courage Wisdom and Friendship to be spread out across the land On their journey they went to dangerous places like a cave guarded by a wild Allosaurus and a steep mountain where they met a smart Brachiosaurus named Bertie In the green valley of peace they found the Crystal of Friendship and learned how important it is to work together and be friendly They took all three gems back to the old oak tree and fixed the opening there They said goodbye to the land of dinosaurs with tears in their eyes taking with them that they had learned about being brave wise and friendly They all lived by these rules in their beautiful green valley which made it a peaceful place to live But their adventures did not end there The Dino Squad knew that with bravery smart and friendship they could deal with any problem Their goal kept going as they looked into the past and the future Just like dinosaurs did in the past they left their mark on the world The Dino Squad s trip became a legendary story that shows how strong these ideas are over time As they set out into the unknown they promised to spread courage knowledge and friendship wherever they went leaving a legacy that would inspire future generations

How the story started A rare group of baby dinosaurs grew up in a beautiful green valley where they lived among tall plants and old cycads These dinosaurs were not like other dinosaurs they were extraordinary in every way Their lives were filled with the colors of curiosity and excitement which made them different from their valley friends But what made these young dinosaurs stand out was that they knew a secret that made their hearts race and their imaginations soar they could move through time The valley itself was a beautiful haven like a prehistoric Eden with clear streams running through it and emerald colored plants as far as the eye could see The valley was filled with the beautiful sounds of singing insects and birds and tall palm trees gently swayed in the warm fragrant breeze This amazing group of dinosaurs was born here in a place that has always been beautiful These young dinosaurs were filled with a sense of wonder that went beyond what they normally did While most of the people who lived in the valley were happy to graze and relax in the shade this unique group couldn t get enough excitement Every day was a new adventure whether it was finding secret waterfalls navigating mysterious caves or playing complicated hide and seek among the ancient ferns But there was one journey that was different from the others They found out about the secret by accident but it took them on the most amazing trip of their lives Deep in the middle of their valley at the base of a twisted and tall oak tree was a secret tunnel that led to different times This old oak tree had roots that went deep into the ground and branches

that reached so far up that they might have touched the fabric of time One of the young dinosaurs bumped into an old oak tree while playing their favorite game of hide and seek on a sunny afternoon In an instant they were taken to a planet that was around millions of years before their time When they found themselves surrounded by huge beasts they had only heard about it in bedtime tales they were scared at first The huge Tyrannosaurus rex the tall Brachiosaurus and the heavily protected Ankylosaurus all lived in the same old area But as they went deeper into this ancient world their fear turned into awe They were amazed by the power of these huge animals as well as by how big they were and how beautiful the scenery was around them They walked through lush jungles with the sounds of exotic birds and rustling leaves They found peaceful prehistoric lakes that sparkled in the golden light and gasped when they saw dinosaurs walking around freely as if time hadn't changed them It didn't take these young time travelers long to figure out that they weren't just going through They made friends with the people who lived in this old land because they were curious and liked to try new things They learned how to get food from herbivorous dinosaurs who showed them the best places to eat and taught them how to avoid the most dangerous enemies They were wandering the deep jungle one amazing day when they found a nest of baby dinosaurs These tiny animals were so cute with their tiny horns and squeaky sounds The young time travelers couldn't bear to leave them on their own so they stayed to guard and guide them Their goal was to get the dinosaur babies back to their parents which was a hard and touching journey As they went through the wilderness on their mission they faced a number of dangerous situations They had to cross dangerous roaring rivers Some dinosaurs used their long necks to build bridges while others moved quickly and deftly through the dangerous water They used their brains and worked together to outsmart the hungry pterosaurs that were looking for food in the sky

Dinosaurs by the Decades Randy Moore, 2014-07-23 Providing an appealing chronology of all things dinosaur this book covers these ancient creatures roles and surprising importance in science religion and society at large This exhaustive up to date book contains more than 2 000 entries about dinosaurs and dinosaur related topics It provides not only detailed information about their discovery underlying science and recent technologies and theories but also encompasses all of the facets of dinosaurs in society for example their use in consumer marketing and promotion popularization of dinosaurs in the media as proof for both evolutionists and creationists to substantiate their claims about life's origins and as cultural artifacts Organized chronologically the book offers an informative and entertaining timeline of how dinosaurs have appeared in science religion and society since they were discovered in the 1800s covering everything from dinosaur museum displays to how dinosaurs served advocates of young Earth creationism This fascinating work enables a broad appreciation for the surprising significance of dinosaurs in many aspects of our daily lives and modern society
