The Rise and Fall of Baby Boomers

Lawrence R. Samuel, 2022 The impact of the baby boomer generation those born between 1946 and 1964 on the past three quarters of a century cannot be underestimated these 76 million Americans reshaped the social economic and political contours of the country and much of the world and continue to do so Despite their rise to power however the reputation of the generation has recently fallen precipitously Many members of younger generations hold strong negative feelings toward boomers convinced that the latter compromised the future of the former Baby boomers are primarily responsible for most if not all the w

The Baby Boomer Encyclopedia

Martin Gitlin, This encyclopedia defines and contextualizes the Baby Boomer generation and the wide reaching contributions of its members throughout modern American history Comprising some 80 million Americans born between 1946 and 1965 the Baby Boomers have significantly changed every aspect of American history and culture The members of this generation experienced some of the most tumultuous times in American history indeed the Boomers helped create these pivotal eras From the advent of rock and roll to disco and rap from the sexual revolution to the arrival of AIDS and from race riots to the election of a black president Baby Boomers have seen it all Through nearly 100 alphabetically arranged entries this encyclopedia gives later generations insight into the contributions of the Baby Boomers and it helps members of that generation better contextualize their own experiences Included entries are written in a clear and engaging manner covering politics and activism entertainment the

economy gender roles arts pop culture sports religion drug and alcohol use and many other subject areas *100 Predictions for the Baby Boom* Cheryl Russell, 2013-11-11 Without the baby boom the United States would be a different place The Vietnam War would have lasted longer Rock and roll would be less pervasive The civil rights movement would have changed laws and attitudes more slowly But women might be further ahead in job status and pay if there had been no baby boom Housing would be cheaper The economy would have done better in the 1970s and people now in their 20s 30s and 40s would be making more money For the past 30 years the baby boom generation all those born between 1946 and 1964 shook American economics politics and culture But the full impact of 7 8 PREFACE the baby boom is yet to come because the generation is just now gaining the economic and political power to determine events Though the baby boom is a diverse generation linked only by its date of birth that link is critical The generation spans 19 years which means many boomers experience the same things at the same time going to college getting a job marrying divorcing buying a house starting a family Because of this the baby boom influences what America's businesses produce what the media write about and what the politicians support It focuses the nation's attention on itself its concerns become the nation's concerns Whatever age the baby boom becomes the nation's age **Baby Boomers and Their Parents** George P. Moschis, Anil Mathur, 2007 Lots of marketers paint a rosy picture of the lifestyle of baby boomers as they enter the retirement years But authors Moschis and Mathur basing their findings on 20 years of surveys among baby boomers and their parents tell it like it is Many baby boomers have saved little money for retirement their health is worse than that of their parents and while both generations say travel is in their futures many will not have money enough to rent a budget motel a few miles from home But the picture is not all bleak Moschis and Mathur use their findings to discuss how people can live longer more satisfying lives In addition they apply those findings to marketing and advertising advising businesses how to use the attitudes and mindsets of mature consumers to create products and services for them as well as to make those products and services more appealing to older customers **Generation Gap** Kevin Munger, 2022-06-07 The Baby Boomers are the largest and most powerful generation in American history and they aren't going away any time soon They are on average whiter wealthier and more conservative than younger generations They dominate cultural and political institutions and make up the largest slice of the electorate Generational conflict with Millennials and Generation Z pitted against the aging Boomer cohort has become a media staple Older and younger voters are increasingly at odds Republicans as a whole skew gray haired and within the Democratic Party the left leaning youth vote propels primary challengers The generation gap is widening into a political fault line Kevin Munger marshals novel data and survey evidence to argue that generational conflict will define the politics of the next decade He examines the historical trends that made the Baby Boomers so consequential and traces the emergence of age based political and cultural divisions Boomers continue to prefer the media culture of their youth but Millennials and Gen Z are using the internet to render legacy institutions irrelevant These divergent media habits have led more people than ever to

identify with their generation Munger shows that a common cohort consciousness binds aging Boomer voters into a bloc but a shared identity and purpose among Millennials and Gen Z could topple Boomer power Bringing together expertise in data analysis and digital culture with keen insight into contemporary politics Generation Gap explains why the Baby Boomers remain so dominant and how quickly that might change **The Greater Generation** Leonard Steinhorn, 2007-03-06 It's fashionable to mock Boomers as self involved and materialistic but what really is their true legacy To understand how the Boomers have changed America think back to the 1950s but without the nostalgia women were kept at home minorities were denied their dignity homosexuality was a crime and anyone who marched to a different drummer was labeled un American Today we live in a far more open inclusive tolerant and equal America That's because Baby Boomers fought a great cultural war to free America from its prejudices inequalities and fears This book tells the story of their accomplishments From publisher description
