The Bacchae of Euripides Wole Soyinka, 1978

Postcolonial Identity in Wole Soyinka Mpalive-Handson

Msiska, 2007 Soyinka's representation of postcolonial African identity is re-examined in the light of his major plays, novels and poetry to show how this writer's idiom of cultural authenticity both embraces hybridity and defines itself as specific and particular. For Soyinka, such authenticity involves recovering tradition and inserting it in postcolonial modernity to facilitate transformative moral and political justice. The past can be both our enabling future and our nemesis. In a distinctive approach grounded in cultural studies, *Postcolonial Identity in Wole Soyinka* locates the artist's intellectual and political concerns within the broader field of postcolonial cultural theory, arguing that although ostensibly distant from mainstream theory, Soyinka focuses on fundamental questions concerning international culture and political identity formations: the relationship between myth and history, tradition and modernity, and the unresolved tension between power as a force for good or evil. Soyinka's treatment of the relationship between individual selfhood and the various framing social and collective identities, so the book argues, is yet another aspect linking his work to the broader intellectual currents of today. Thus Soyinka's vision is seen as central to contemporary efforts to grasp the nature of modernity. His works conceptualize identity in ways that promote and modify national perceptions of Africanness, rescuing them from the colonial and neocolonial logic of cultural denigration in a manner that fully acknowledges the cosmopolitan and global contexts of African postcolonial formation. Overall, what emerges from the present study is the conviction that in Soyinka's work it is the capacity to assume personal and collective agency and the particular choices made by particular subjects at given historical moments that determine the trajectory of change and ultimately the nature of postcolonial existence itself. *Postcolonial Identity in Wole Soyinka* is a major and imaginative contribution to the study of Wole Soyinka, African literature and postcolonial cultural theory, and one in which writing and creativity stand in fruitful symbiosis with the critical sense. It should appeal to Soyinka scholars, to students of African literature, and to anyone interested in postcolonial and cultural theory.

Greek Fragments in Postmodern

Frames Eleftheria Ioannidou, 2017 This volume focuses on the adaptation of Greek tragedy between 1970 and 2005 in order to interrogate the relationship between tragedy and postmodernism. Analysis of a range of adaptations from this period demonstrates intertextual engagements with prototype texts that have much in common with the main ideas expressed in poststructuralist thought.

Euripides Isabelle Torrance, 2019-01-30 Sophocles, Aeschylus and Euripides are often described as the greatest tragedians of the ancient world. Of these three pivotal founders of modern drama, Euripides is characterized as the interloper and the innovator, the man who put tragic verse into the mouths of slaves, women and the socially inferior in order to address vital social issues such as sex, class and gender relations. It is perhaps little wonder that his work should find such resonance in the modern day. In this concise introduction, Isabelle Torrance engages with the thematic, cultural and scholarly difficulties that surround his plays to demonstrate why Euripides remains a figure of perennial relevance.

Addressing here issues of social context performance theory fifth century philosophy and religion textual criticism and reception the author presents an astute and attractively written guide to the Euripidean corpus from the widely read and celebrated Medea to the lesser known and deeply ambiguous Alcestis

Wole Soyinka Adam Lecznar, 2024-09-05 This book presents a new way of looking at Wole Soyinka s engagement with the classical past Nigerian author and activist Wole Soyinka was the first Black African author to win the Nobel Prize for Literature 1986 and his oeuvre has become seminal to postcolonial literature The frequent references to Greece and Rome that appear across Soyinka s writings most explicitly in his 1973 play *The Bacchae* of Euripides *A Communion Rite* have often received short shrift in scholarship on the author At best these references have been understood as elements of Soyinka s prodigiously inclusive humanism At worst Soyinka s critics argue that the invocations of a Graeco Roman past testify to the neocolonial cultural affinities that make Soyinka a problematic figure in postcolonial literary history Adam Lecznar challenges these readings arguing that Soyinka s authorial outlook is informed by a hybrid form of classicism in which he aligns the legacy of Greece and Rome with the African cultural heritage to form a narrative of literary and cultural value that looks beyond the ancient Mediterranean This book turns a spotlight on how Soyinka s appeals to Greece and Rome inform his reflections on Africa s ancient past Yoruba belief and the modern significance of tragedy Lecznar contends that Soyinka s notion of classicism is not solely dependent on the memory of the Graeco Roman past Rather it draws innovatively on a global cultural heritage to advance revolutionary and futural narratives of history and identity
