Bad Apples:

Bad Apples Terrence Sember, Brette Sember, 2009-05-18 Unlike other career books this book offers managers a team focused approach to neutralizing a not so pleasant or productive working atmosphere Instead of isolating the one problem employee relevant teams are considered as part of the solution The result Solutions stick and there s less likelihood of the bad apple ruining the bunch Complete with situational advice and case studies taken straight from the trenches this simple and straightforward guide teaches managers how to Calm down combatants Motivate wasters Silence gossips De arm backstabbers Convince passive aggressives to open up Teach narcissists the importance of the team This book helps managers decide what the right course of action is whether it means chastising negative behavior encouraging positive outlooks separating certain folks creating teams for success giving employees warnings and or firing the ones who are pretty much rotten through and through This book is essential reading for any manager looking to ensure a pleasant productive and fruitful work environment Managing Business Ethics Linda K. Trevino, Katherine A. Nelson, 2010-08-23 While most business ethics texts focus exclusively on individual decision making what should an individual do this resource presents the whole business ethics story Highly realistic readable and down to earth it moves from the individual to the managerial to the organizational level focusing on business ethics in an organizational context to promote an understanding of complex influences on behavior The new Fifth Edition is the perfect text for students entering the workplace those seeking to become professionals in training communications compliance in addition to chief ethics officers corporate counsel heads of human resources and senior executives *Hearings* United States. Congress. Senate. Committee on Labor and Public Welfare, 1968

The People Make the Place D. Brent Smith, 2008 First Published in 2008 Routledge is an imprint of Taylor Francis an informa company *The Problem of the Criterion* Robert Amico, 1995-03-28 Selected by CHOICE as an Outstanding Academic Book for 1995 **The Field Guide to Understanding Human Error** Sidney Dekker, 2017-04-07 When faced with a human error problem you may be tempted to ask Why didn t they watch out better How could they not have noticed You think you can solve your human error problem by telling people to be more careful by reprimanding the miscreants by issuing a new rule or procedure These are all expressions of The Bad Apple Theory where you believe your system is basically safe if it were not for those few unreliable people in it This old view of human error is increasingly outdated and will lead you nowhere The new view in contrast understands that a human error problem is actually an organizational problem Finding a human error by any other name or by any other human is only the beginning of your journey not a convenient conclusion The new view recognizes that systems are inherent trade offs between safety and other pressures for example production People need to create safety through practice at all levels of an organization Breaking new ground beyond its successful predecessor The Field Guide to Understanding Human Error guides you through the traps and misconceptions of the old view It explains how to avoid the hindsight bias to zoom out from the people closest in time and place to the mishap and resist the temptation

of counterfactual reasoning and judgmental language But it also helps you look forward It suggests how to apply the new view in building your safety department handling questions about accountability and constructing meaningful countermeasures It even helps you in getting your organization to adopt the new view and improve its learning from failure So if you are faced by a human error problem abandon the fallacy of a quick fix Read this book [The Textbook of Total Quality in Healthcare](#) A. F. Al-Assaf, June Schmele, 1993-09-01 Until now no textbook on TQ has emerged that was written specifically for the healthcare industry The Textbook of TQ in Healthcare is the first true text prepared by healthcare professionals for healthcare professionals It provides a discussion of the tools techniques and principles of TQ Academic programs will find this text very useful for courses in TQ quality management general and strategic management and leadership The Textbook is also an excellent reference for students and professionals in medicine nursing allied health services pharmacy and healthcare administration The Textbook of TQ in Healthcare starts with an introduction and history of TQ and its movement from the manufacturing sector to the healthcare industry Quality is then discussed as a major cornerstone of the healthcare delivery system Principles methods for implementation and the tools for assessing TQ progress are described The Textbook concludes with a section on comparative analysis of TQ with other management philosophies Also presented are a case study of a major healthcare facility that has actually implemented TQ and an excellent collection of articles that further expand the understanding of TQ [The Political Mind](#) George Lakoff, 2008-05-29 A groundbreaking scientific examination of the way our brains understand politics from a New York Times bestselling author One of the world's best known linguists and cognitive scientists George Lakoff has a knack for making science make sense for general readers In his new book Lakoff spells out what cognitive science has discovered about reason and reveals that human reason is far more interesting than we thought it was Reason is physical mostly unconscious metaphorical emotion laden and tied to empathy and there are biological explanations behind our moral and political thought processes His call for a New Enlightenment is a bold and striking challenge to the cherished beliefs not only of philosophers but of pundits pollsters and political leaders The Political Mind is a passionate erudite and groundbreaking book that will appeal to anyone interested in how the mind works and how we function socially and politically [The Journal of the Ministry of Agriculture](#) ,1925
