American Sign Language Shattering The Myth:

American Sign Language Frances M. Parsons, Larry G. Stewart, 1998 A collection of essays from distinguished and respected scholars marks the turning point in the education of the deaf Headlined with compositions and documents written by the late Dr Larry G Stewart and Prof Frances M Parsons both once members of the faculty of Gallaudet University the book opens the door for new thinking It also includes additional contributions from Dr Otto J Menzel Dr Donald F Moores and others These writers venture into the heart of deaf language and cultural issues and rewards the reader with the kind of critical thinking largely absent from many proponents of ASL based learning

From Pity to Pride Hannah Joyner, 2004 The antebellum South's economic dependence on slavery engendered a rigid social order in which a small number of privileged white men dominated African Americans poor whites women and many people with disabilities From Pity to Pride examines the experiences of a group of wealthy young men raised in the old South who also would have ruled over this closely regimented world had they not been deaf Instead the promise of status was gone replaced by pity as described by one deaf scion I sometimes fancy some people to treat me as they would a child to whom they were kind In this unique and fascinating history Hannah Joyner depicts in striking detail the circumstances of these so called victims of a terrible misfortune Joyner makes clear that Deaf people in the North also endured prejudice She also explains how the cultural rhetoric of paternalism and dependency in the South codified a stringent system of oppression and hierarchy that left little room for self determination for Deaf southerners From Pity to Pride reveals how some of these elite Deaf people rejected their family's and society's belief that being deaf was a permanent liability Rather they viewed themselves as competent and complete As they came to adulthood they joined together with other Deaf Americans both southern and northern to form communities of understanding self worth and independence

Controversies and Disputes in Disability and Rehabilitation Roland Meinert, Francis Yuen, 2014-06-11 Although the field of disability services and societal understanding of disability issues have advanced in recent decades there remain controversial subjects and unresolved disputes These cover a wide spectrum from legislation impacting the entire disability community such as the ADA to culture clashes within a minority group such as the deaf community Experts analyze and discuss nine of these controversies of particular interest to professional social workers They are ones about which there are obvious disagreements and no readily available solutions All sides of the issues are examined to enable readers to draw their own conclusions The overall intent is to draw attention to each controversy and to motivate professional social workers to engage in personal as well as public dialogue about them This book was originally published as a special issue of Journal of Social Work in Disability and Rehabilitation

Contemporary Authors New Revision Series, 2003 A biographical and bibliographical guide to current writers in all fields including poetry fiction and nonfiction journalism drama television and movies Information is provided by the authors themselves or drawn from published interviews feature stories book reviews and other materials provided by the authors publishers Choice, 2000
