Design Eleanor Herring, 2016-07-14 Eleanor Herring's unique study of street furniture in post war Britain considers how objects which are now familiar parts of our urban environment were designed to populate public spaces Herring explores the design of lampposts post boxes parking meters and signage in the context of a government backed by various bodies keen to propagate good modern design in a Britain whose towns and cities had been laid waste by bombing and the privations of war She also considers the innate conservatism of local communities and councils wary of a standardised street design imposed from above She traces how the design of street furniture became the site of a fierce struggle which exposed deep seated anxieties about class taste and power Herring's original research draws on archival material and on interviews with leading figures in urban design including graphic designer Margaret Calvert and industrial designer Kenneth Grange

Scandinavian Design Kjetil Fallan, 2013-05-09 Scandinavian design is still seen as democratic functional and simple its products exemplifying the same characteristics now as they have done since the 1950s But both the essence and the history of Scandinavian design are much more complex than this Scandinavian Design Alternative Histories presents a radically new assessment a corrective to the persistent mythologies and reductive accounts of Scandinavian design The book brings together case studies from the early twentieth century to today Drawn from fields as diverse as transport engineering packaging photography law interiors and corporate identity these studies tell new or unfamiliar stories about the production mediation and consumption of design An alternative history is created one much more alive to national and regional differences and to types of product Scandinavian Design analyses a century of design culture from Denmark Finland Norway and Sweden and in so doing presents a sophisticated introduction to Scandinavian design **Streamliners** Brian
