Rossiter, 1998-09-29 Winner of the Pfizer Award for Outstanding Book in the History of Science Margaret Rossiter's widely hailed *Women Scientists in America: Struggles and Strategies to 1940* marked the beginning of a pioneering effort to interpret the history of American women scientists That effort continues in this provocative sequel that covers the crucial years of World War II and beyond Rossiter begins by showing how the acute labor shortage brought on by the war seemed to hold out new hope for women professionals especially in the sciences But the public posture of welcoming women into the scientific professions masked a deep seated opposition to change Rossiter proves that despite frustrating obstacles created by the patriarchal structure and values of universities government and industry women scientists made

genuine contributions to their fields grew in professional stature and laid the foundation for the breakthroughs that followed 1972 *Wallace's American Stud-book* John Hankins Wallace,1867 *A Lab of One's Own* Rita Colwell, Sharon Bertsch McGrayne, 2021-08-17 Colwell the first female director of the National Science Foundation discusses the entrenched sexism in science the elaborate detours women have taken to bypass the problem and how to fix the system When she first applied for a graduate fellowship in bacteriology she was told We don't waste fellowships on women Over her six decades in science as she encounters other women pushing back against the status quo Colwell also witnessed the advances that could be made when men and women worked together Here she offers an astute diagnosis of how to fix the problem of sexism in science and a celebration of the women pushing back *The American Musical* Marc Bauch, 2003 Although almost neglected in research and studies on American Literature the American Musical is certainly the most interesting and the most popular genre of American theater and drama It has been influenced by the necessities of a self funding commercial theater system of a democratic country The fact that it has developed in a country of democracy means that it should be a genre for everyone the intellectual and the common man Broadway has provided all these In his study Marc Bauch analyzes three American Musicals namely *South Pacific* 1949 by Richard Rodgers and Oscar Hammerstein *West Side Story* 1957 by Leonard Bernstein Arthur Laurents and Stephen Sondheim as well as *Sunday in the Park with George* 1984 by Stephen Sondheim and James Lapine Special attention is paid to the themes and topics the literary means and the dramatic dodges of the aforementioned American Musicals The three analyses are extended with historical overviews of the American Musical Marc Bauch is also the author of *Themes and Topics of the American Musical after World War II* 2001 also published by Tectum Verlag
