Americas Old Age Crisis:

Risking Old Age In America Richard J. Margolis, 2019-06-18 Originally published in 1990 Research into the provision made for the 30 million Americans aged sixty five and up whom society calls old *Americas Old Age Crisis* Stephen Crystal, 1982-12-06 Abstract Material representing the first comprehensive current accounting of the changing needs of the elderly relative to health care is provided for policy makers the general public and health care professionals New survey data are presented identifying the aged how they live and their financial resources Widely accepted myths about the aging are explored This wide ranging study provides new understanding of the strengths and limitations of family help and a definitive analysis of the major health and income programs serving the elderly It is pointed out that the variety of benefits is neither efficient nor fair subsidizing the larger population of healthy and well off at the expense of the very old the poor and the chronically infirm It is concluded that current policies need revision to more consistently match benefit programs with needs wz **Lessons from Pension Reform in the Americas** Stephen J.
