Leading Effective Virtual Teams Nancy M. Settle-Murphy, 2012-12-13 A proliferation of new technologies has lulled many into thinking that we actually have to think less about how we communicate. In fact, communicating and collaborating across time, distance, and cultures has never been more complex or difficult. Written as a series of bulleted tips drawn from client experiences and best practices, *Leading Effective Virtual Teams: Overcoming Time and Distance to Achieve Exceptional Results* presents practical tips to help leaders engage and motivate their geographically dispersed project team members. If you're a leader of any type of virtual team and want to help your team members collaborate more effectively, then buy this book. You will learn how to: Build trust and cultivate relationships virtually across your team; Design and facilitate virtual meetings that are focused and engaging; Influence without authority; Motivate and galvanize a virtual team for top performance; Blend asynchronous and synchronous communications for better virtual collaboration; Navigate cross-cultural and generational differences in the absence of vital visual cues; Assess skills, strengths, aptitudes, and preferences from afar; Handle other tough issues that can trip up virtual teams. The ideas in this book are based on Nancy Settle-Murphy's decades of experience working as a change management consultant, facilitator, and trainer for project teams around the world. Designed to be read section by section in any order, this book shares approaches and techniques to help you address some of the toughest challenges virtual team leaders face, including keeping team members engaged from afar. *Professional Learning Communities at Work™ and Virtual Collaboration* Richard DuFour, Casey Reason, 2015-07-24 Now is the time to transform education. Provided by publisher. *Cultivating Creative Collaboration in Student Virtual Teams in Higher Education: Design and Climate* Nemiro, Jill E., 2025-07-16 Over the last twenty years, creativity has been shown to be a critical element to contemporary organizations, especially as global competition, the need for innovation, and technological advances have intensified. The rise of technological advances has produced an increase in remote work and virtual teams, especially within business settings, to deal with global competition and the rise of non-routine work. However, the COVID-19 pandemic generated an even greater increase in the utilization of remote work and virtual teams, not only in business but in higher education as well, and it appears that this trend is not going away. Thus, it is crucial to teach students how to work effectively in virtual teams to prepare them for their future careers.

Training current employees in virtual teaming skills is also necessary as more professionals are transitioning into remote or hybrid work. Cultivating Creative Collaboration in Student Virtual Teams in Higher Education Design and Climate provides an in depth understanding of how to design academic courses and business training experiences that can offer employees and college level students hands on experiences to develop virtual teamwork skills. It aims to nurture students professional development by enhancing their creativity while working in virtual teams and to assist faculty in designing and implementing effective virtual team learning experiences in their courses. Covering topics such as intentional team culture information sharing and setting communication norms this book is an excellent resource for educational leaders educators instructional designers technology instructors human resource HR managers business leaders professionals researchers scholars academicians and more.

Designing Boundary Objects for Virtual Collaboration Marc Marheineke, 2016-09-19 Marc Marheineke explores the phenomenon of boundary objects in the process of virtual collaboration. Virtual collaboration is an interactive act that connects jointly and voluntarily collaborating individuals that are electronically linked and he examines these communities from different perspectives. All communities are characterized by their aim to conduce to shared understanding through a purposeful use of boundary objects. These objects are artefacts that serve two or more community members to establish collaboration. This book shows in a design oriented process how and when to use these boundary objects for virtual collaboration.
