Bournville Jonathan Coe, 2024-10-23 Un retrato brillante conmovedor y brutalmente divertido de la Gran Bretaña contemporánea contado a través de las cuatro generaciones de una familia de Birmingham Del galardonado autor del bestseller El corazón de Inglaterra llega un retrato brillante conmovedor y brutalmente divertido de la Gran Bretaña contemporánea contado a través de las cuatro generaciones de una familia de Birmingham Construido por los Cadbury para sus trabajadores a finales del siglo XIX el plácido suburbio de Bournville es la sede de una famosa fábrica de chocolate En el número 12 de Birch Road viven Mary y su familia Para ellos y para el resto de la comunidad la fábrica es el centro del mundo la razón por la que las calles huelen ligeramente a chocolate el lugar donde la mayoría de sus amigos y vecinos han trabajado durante décadas A los once años Mary es testigo del fin de la Segunda Guerra Mundial Vivir también la coronación de Isabel II y la final de la Copa del Mundo la última que gana Inglaterra bodas y funerales reales el Brexit y el Covid 19 Tendra hijos Jack Martin y Peter nietos y bisnietos Ver cómo una parte de la fábrica de chocolate se transforma en un parque temático y cómo Bournville hasta entonces un enclave tranquilo es engullido poco a poco por la vida moderna y la expansión creciente de la ciudad A lo largo de setenta y cinco años de cambios sociales desde James Bond hasta la princesa Diana desde la nostalgia de los tiempos de guerra y el excepcionalismo inglés hasta la World Wide Web y una pandemia mundial que lo pondrá todo en jaque se teje una afectuosa obra de historia social en forma de ficción el retrato de las cuatro generaciones de una familia cuyos sucesos desencuentros y desventuras muerte de seres queridos agresiones xenófobas dificultades matrimoniales huelgas laboristas o el thatcherismo reflejan las cambiantes aristas de la Gran Bretaña de posguerra Un relato a lo largo del cual asoma una acuciante pregunta acerca de esos tiempos de cambio a la extensa familia de Mary y por ende a todo el país o la dejarán más a la deriva y dividida que nunca Con un sentido del absurdo y una mordacidad exquisitos Bournville es en el fondo un tierno retrato de gente aparentemente sencilla que al intentar desentrañar el misterio de sus propias vidas acaba trazando el retrato de su nación Jonathan Coe vuelve a la palestra para seguir completando un corpus satirico sobre la vida política de la Inglaterra contemporánea elevado ya a la categoría de clásico moderno

When We Build Again Bournville Village Trust, 2013-07-24 Like many UK cities Birmingham was heavily bombed during the Second World War and as with so many bombed British cities and many unbombed ones that jumped on to the re planning bandwagon there was a clear imperative

to reconstruct But Birmingham was atypical in how it went about this The city had begun planning in the mid 1930s principally to replace vast quantities of slum housing and there had been suggestions about ring roads even from the time of the First World War So plans were available virtually ready to go and were approved by a private Act of Parliament in 1946 Yet within Birmingham there were individuals and organisations with a great interest and influence in planning matters This followed a significant and long standing local tradition from the Chamberlain family to Nettlefold s pioneering work on planning and housing at the start of the twentieth century Prominent amongst these was the Cadbury family and the Bournville Village Trust and one of its immediate responses to bomb damage was the book *When We Build Again* This was immediately influential in several respects as contemporary reviews and ongoing citations demonstrate It highlighted some less palatable truths about conditions in the city and more widely with ideas about what might be done To modern eyes some of these are radical for example the wholesale redevelopment of the Jewellery Quarter an area which was recently proposed for World Heritage status The origins of the derided post war comprehensive clearance approach lie in these papers Further it used innovative and striking graphics to communicate statistical information to lay readers including the use of striking photography of places and particularly people Also included in this volume is a facsimile of a second Bournville Trust publication from 1955 *Birmingham Fifty Years On* This less famous but equally important publication grew from a frustration at the slow pace of post war reconstruction and envisaged what the city would look like half a century later Routledge Revivals: Localities (1989) Philip Cooke, 2016-09-19 First published in 1989 this book examines seven different localities ranging from the outer suburbs of large northern cities to small freestanding town which were prospering in the 1980s or struggling against the negative employment effects of restructuring Within the theoretical frame of industrial restructuring it traces the development of each locality exploring in depth the influence of several key elements deindustrialisation technological change the shift to the services in employment on social composition political change and local policy A major contribution to locality studies this book is essential reading for students of urban and regional studies and sociology

Estates Lynsey Hanley, 2012-11-01 Lynsey Hanley was born and raised just outside of Birmingham on what was then the largest council estate in Europe and she has lived for years on an estate in London s East End Writing with passion humour and a sense of history she recounts the rise of social housing a century ago its adoption as a fundamental right by leaders of the social welfare state in the mid century and its decline as both idea and reality in the 1960s and 70s Throughout Hanley focuses on how shifting trends in urban planning and changing government policies from Homes Fit for Heroes to Le Corbusier s concrete tower blocks to the Right to Buy affected those so often left out of the argument over council estates the millions of people who live on them What emerges is a vivid mix of memoir and social history an engaging and illuminating book about a corner of society that the rest of Britain has left in the dark *Official Handbook Birmingham* (England), 1950

Place, Policy and Politics Michael Harloe, C.G. Pickvance, John Urry, 2006-05-23 The past ten years have seen local

government in the UK facing two major challenges to survive in the face of Thatcher government hostility and to adapt to enormously powerful forces of economic restructuring which have also been encouraged by government policies The key aspects of these changing fortunes of British towns explored in this important new book is the ability of individual localities to exercise any control over their own growth and decline Place Policy and Politics examines local political initiatives seeking to influence economic and social development in seven sharply contrasting localities ranging from the outer council estates of Merseyside to the boom towns of Cheltenham and Swindon Throughout their analysis the contributors drawn from a wide range of social science disciplines address the vital questions in the debate over local policy initiatives including To what extent are localities able to harness trends in the national and international economy to provide jobs and a better standard of living for their inhabitants Why do local authorities vary in their capacity to initiate economic policy To what extent do national urban and other policies inhibit or encourage their efforts How might central government modify its policies to facilitate the prospering of localities
