

Brave New World

BY ALDOUS HUXLEY

HUXLEY'S OWN EXPERIENCES WITH DRUGS

He consumed LSD, which inspired him to introduce the drug "soma", into his book.

ENGLAND IN HUXLEY'S TIME

England was between World War I and II and in the middle of industrialization, and had a strict and rigid class structure.

That is why, we see LOTS of machines and technological advances, but we lose focus on the terrible tyranny that these people had.

CHARACTERS SIMILAR TO THE WRITER

Bernard Marx and Helmholtz Watson. Both of them are part of the "elite class", and feel the need to achieve some standards, maintain their images and appear happy.

UNFORTUNATE EVENTS

Huxley's mother died of cancer when he was 14.

Ulrich Beck

Brave New World Of Work:

The Brave New World of Work Ulrich Beck, 2014-11-05 In this important book Ulrich Beck one of the leading social thinkers in Europe today examines how work has become unstable in the modern world and presents a new vision for the future Beck begins by describing how the traditional work society with its life long job paths is giving way to a much less stable world in which skills can be suddenly devalued jobs obliterated welfare cover reduced or eliminated The West would appear to be heading towards a social structure of ambiguity and multiple activity that has hitherto been more characteristic of the developing world But what appears to be the end of traditional working practices can also be seen as an opportunity to develop new ideas and models for work in the twenty first century Beck s alternative vision is centred on the concept of active citizens democratically organized in local and increasingly also regional or transnational networks Against the threat of social exclusion everyone can and must have a right to be included in a new definition and distribution of work This will involve constant movement between formal employment with a major reduction in working hours and forms of self organized artistic cultural and political civil labour providing equal access to comprehensive social protection The aim must be to turn insecurity around so that it becomes a positive and enriching discontinuity of life Drawing on his earlier work on risk and reflexive modernization The Brave New World of Work is also closely linked to his studies on globalization and individualization These processes are part of the same challenge upon which a politics of modernity must now base itself Not only the future of work but also the very survival of democracy and the welfare state will depend on the development of a newly committed and multi active transnational citizenship This book will be of great interest to second and third year students in sociology politics geography and the social sciences generally It will also appeal to a broader audience interested in the issues and debates surrounding the changing nature of work

Experiencing the New World of Work Jeremy Aroles, François-Xavier de Vaujany, Karen Dale, 2021-01-21 This edited volume explores theories and critically investigates different facets of the new world of work

Citizenship Revisited Peter Herrmann, 2004 Strangely citizenship has usually been considered as a matter of interest when it is questioned or even withheld The other way round usually citizenship is taken for granted as it is not being defined as such In consequence we find only a negative definition rather than a clear way of spelling out the meaning As globalisation spreads and deepens the question of citizenship becomes crucial for society It is already possible to see changes in voting patterns in such a country as France due to its immigration policies This has long been the case in America as well and is being felt there yet again by the effects of the citizenships of its newest immigrants The contributions in this volume are dealing with different aspects of defining citizenship though not necessarily conceptualising it as such i.e. under this term These are burning questions which this book explores in this explosive national and international issue Contents Introduction Citizenship Revisited Threats and Opportunities of Shifting Boundaries Globalisation as Seen from the Local Level Self Improved Citizens Citizenship Social Inclusion and the Self in the Politics of
