1993 Lectures And Memoirs:

1993 Lectures and Memoirs British Academy, 1994 **1996 Lectures and Memoirs** British Academy, 1997 This volume includes 10 British Academy lectures and 21 obituaries of departed Fellows **Hellenica** M. L. West, 2013-12 Hellenica is a three volume selection of ninety or so of M L West's most notable papers relating to Greek literature and thought This third volume contains thirty three pieces chosen from over four decades of publication and one hitherto unpublished Eleven items fall under the heading of philosophy and ten under that of music and metre Most of the remainder are on literary texts and topics The volume is rounded off with a provocative collection of Obiter Dicta culled from the whole body of the author's output The first volume is devoted to early epic and the second to the lyric poets and tragedy Each volume contains a preface indexes and a full list of the author's other writings relating to the areas in question **Poetry and the Making of the English Literary Past, 1660-1781** Richard G. Terry, 2001 The book concludes that the opening up and ordering of the English literary past occurs earlier than is generally supposed and the same also applies to the process by which women writers achieve their own distinctive form of canonical recognition **BOOK JACKET** **Parodies, Hoaxes, Mock Treatises** Jonathan Swift, 2013-07-18 Swift's parodies are among his most fascinating works but perhaps require most explication for the modern reader Valerie Rumbold brings a new depth and detail to the editing of Swift's Bickerstaff papers Polite Conversation Directions to Servants and other works on language and conduct Highlights include a fresh investigation of the political and print contexts of the Bickerstaff papers full commentaries on such smaller works as A Modest Defence of Punning and On Barbarous Denominations in Ireland identification and explanation of many additional sayings in Polite Conversation and a detailed contextualisation of Directions to Servants in contemporary domestic theory and practice A substantial thematic Introduction is supplemented by an individual headnote and full annotation to each work The Textual Introduction explores the publishing strategies adopted by Swift and his booksellers and a separate Textual Account of each work presents and discusses changes in the texts over time *The Plagiarism Allegation in English Literature from Butler to Sterne* R. Terry, 2010-09-22 Contributing to the growth in plagiarism studies this timely new book highlights the impact of the allegation of plagiarism on the working lives of some of the major writers of the period and considers plagiarism in relation to the emergence of literary copyright and the aesthetic of originality **England's Colonial Wars 1550-1688** Bruce Lenman, 2014-07-15 Bruce Lenman's hugely ambitious study explores three interacting themes the growth of England's sprawling colonial empire its military dimension and the impact of colonial warfare on national identity He starts in Ireland with the renewed assault of English settlers on the Irish Gaeltacht Under the Scottish Stuarts England then began a dramatic expansion across the North Atlantic In America the Indian Wars fought with minimal Crown support helped forge an independent military capability among the colonists while in the West Indies slave numbers and French intervention forced English settlers into a new dependency on the Crown In India the East India Company achieved ascendancy by sepoy armies

under British control These were very different kinds of empire and a showdown became inevitable The climactic conflict the American Revolution would not only dictate the future shape of colonial expansion but also decisively reshaped the identities of all the participants *Religion and Culture in Renaissance England* Claire McEachern, Debora Shuger, 1997-06-28 These essays by leading historians and literary scholars investigate the role of religion in shaping political social and literary forms and their reciprocal role in shaping early modern religion from the Reformation to the Civil Wars Reflecting and rethinking the insights of new historicism and cultural studies individual essays take up various aspects of the productive if tense relation between Tudor Stuart Christianity and culture and explore how religion informs some of the central texts of English Renaissance literature the vernacular Bible Foxe's Acts and Monuments Hooker's Laws Shakespeare's plays and sonnets the poems of John Donne Amelia Lanyer and John Milton The collection demonstrates the centrality of religion to sixteenth and seventeenth century England and its influence on early modern constructions of gender subjectivity and nationhood
