Annali di storia delle università italiane, 2003 **History of Universities** Mordechai Feingold, 2002-09-12 Volume XVII of History of Universities contains the customary mix of learned articles book reviews conference reports and bibliographical information which makes this publication such an indispensable tool for the historian of higher education Its contributions range widely geographically chronologically and in subject matter The volume is as always a lively combination of original research and invaluable reference material **An Institutional History of Italian Economics in the Interwar Period — Volume I** Massimo M. Augello, Marco E.L. Guidi, Fabrizio Bientinesi, 2019-11-25 Italy is well known for its prominent economists as well as for the typical public profile they have constantly revealed But when facing an illiberal and totalitarian regime how closely did Italian economists collaborate with government in shaping its economic and political institutions or work independently This edited book completes a gap in the history of Italian economic thought by providing a complete work on the crucial link between economics and the Fascist regime covering the history of political economy in Italy during the so called Ventennio 1922 1943 with an institutional perspective The approach is threefold analysis of the academic and extra academic scene where economic science was elaborated and taught the connection between economics society and politics and dissemination of scientific debate Special attention is given to the bias caused by the Fascist regime to economic debate and careers This Volume I deals with the economics profession under Fascism in particular in light of the political and institutional changes that the regime introduced the restructuring of higher education the restriction of freedom in teaching and of the press and with respect to promoting its own strategies of political and ideological propaganda Volume II available separately considers the public side of the economics profession the fascistisation of culture and institutions banishment and emigration of opponents and post WW2 purge of Fascist economists *Natural Law and the Law of Nations in Eighteenth- and Nineteenth-Century Italy*, 2023-11-07 The open access publication of this book was financially supported by the Swiss National Science Foundation This volume sheds new light on modern theories of natural law through the lens of the fragmented political contexts of Italy in the eighteenth and nineteenth centuries and the dramatic changes of the times From the age of reforms through revolution and the Risorgimento the unification movement which ended with the creation of the unified Kingdom of Italy in 1861 we see a move from natural law and the law of nations to international law whose teaching was introduced in Italian universities of the newly created Kingdom The essays collected here show that natural law was not only the subject of a highly codified academic teaching but also provided a broader conceptual and philosophical frame underlying the science of man Natural law is also a language wherein reform programmes of education and of politics have taken form affecting a variety of discourses and literary genres Contributors are Alberto Clerici Vittor Ivo Comparato Giuseppina De Giudici Fr d ric Ieva Girolamo Imbruglia Francesca Iurlaro Serena Luzzi Elisabetta Fiocchi Malaspina Emanuele Salerno Gabriella Silvestrini Antonio Trampus **The Jesuits and Italian Universities, 1548-1773** Paul F.
