Animals Make You Feel Better:

Animals and the Limits of Postmodernism Gary Steiner, 2013-04-16 In *Animals and the Limits of Postmodernism* Gary Steiner illuminates postmodernism's inability to produce viable ethical and political principles. Ethics requires notions of self agency and value that are not available to postmodernists. Thus much of what is published under the rubric of postmodernist theory lacks a proper basis for a systematic engagement with ethics. Steiner demonstrates this through a provocative critique of postmodernist approaches to the moral status of animals set against the background of a broader indictment of postmodernism's failure to establish clear principles for action. He revisits the ideas of Derrida, Foucault, Nietzsche, and Heidegger together with recent work by their American interpreters and shows that the basic terms of postmodern thought are incompatible with definitive claims about the moral status of animals as well as humans. Steiner also identifies the failures of liberal humanist thought in regards to this same moral dilemma and he encourages a rethinking of humanist ideas in a way that avoids the anthropocentric limitations of traditional humanist thought. Drawing on the achievements of the Stoics and Kant, he builds on his earlier ideas of cosmic holism and non anthropocentric cosmopolitanism to arrive at a more concrete foundation for animal rights.

Embodiment, How Animals and Humans Make Sense

of Things: The Dawn of Art, Ethics, Science, Politics, and Religion Jesse James Thomas, 2018-02-27 This book is not about what we can teach animals but what they can teach us Their differences are often not as radical as most humans imagine which is one reason we love animals We have more neurons in our neurological systems but we share many of the same features and underestimate what they have learned about survival strategies over the eons We stop and think a lot more but in doing so can sometimes interfere with natural processes and the results are not always good Animals provide a good platform from which we should launch emotionally and even ethically if we pay attention to them This book is unlike carefully documented scholarly articles that Dr Thomas also writes It is written for a wide popular audience and is loaded with stories and humor It is meant to be easy to read for almost anyone The Warrior's Guide to Insanity Andrew B.

The Human Ideology Valentin Matcas, 2016-04-20 Ideologies are sets of beliefs and ideas determining closely your thinking judgment behavior and social interaction throughout life Ideologies may be religious social political national cultural educational spiritual traditional and scientific And if it ends in ism it is an ideology for certain as capitalism nationalism socialism and communism However all religions and schools of thought are ideologies and most of them do not end in ism Since when you have enclosed sets of beliefs meant to remain highly consistent among themselves and highly exclusive

keeping you within while criticizing and attacking the rest then these are ideologies. Cults have their own ideologies at their base along with entire regimes and political parties, scientific organizations, social hierarchies including hierarchic Brotherhoods and entire nations. The major difference between ideological thinking and normal natural thinking is that ideologies restrain your cognition to specific artificial predetermined sets of beliefs for various reasons. And this gives ideologies their specific artificial consensual enforced structure as opposed to normal reasoning and normal behavior which remain genuine and unrestricted. Since this is the difference between freedom and servitude between the accurate and the consensual and between genuine fulfillment and hierarchic assignments. And many times ideologies state upfront that they are based on beliefs and consensus that you have to serve someone or something in that ideology that you have to follow specific rules and beliefs or that you have to state specific oaths and attend specific rituals and ceremonies. And so you do for someone remarkable or for your own good or for the good of your own kind but you have to do so exactly as stated in the ideology. And sometimes it is good and sometimes dreadful while the other ideologies are always dreadful but not yours. While it always upsets you when anyone challenges your ideology in any manner which is another detail defining ideologies consistently. Are ideologies good or bad in this world? They are certainly good mostly yours since they mean the world to you. And they are fake irrelevant and even harmful but the other ideologies never yours. And as you already notice it depends on your own perspective while the good and the bad in this world should relate to the world itself. If not you end up following your own wellbeing and gratification in this world and throughout life or the wellbeing and gratification of your remarkable authority or of your own kind or of all followers of this ideology but not of the entire world with you included. And this is the bad part for the rest of the world because it triggers discrimination, exploitation and consequently implicit extermination. This is a main characteristic of all remarkable ideologies and this is exactly what harms this world. Throughout this book we study ideologies in all details and from all perspectives in order to identify and understand them just to be able to protect yourself and this world from them. Because if thoughts can harm you in any manner then ideologies certainly can since they may bring this world to discrimination, servitude and totalitarianism as they always do.
