Victoria Aarons, Phyllis Lassner

Animals In The Third Reich Pets Scapegoats And The Holocaust:

Animals in the Third Reich Boria Sax, 2000 Contrasting Jewish Christian and polytheistic traditions and contemporary German attitudes regarding the treatment of animals Boria Sax documents how Nazis manipulated these attitudes to conform to their own symbolic system Aryan wolves and horses Jewish pigs and apes By equating the Nazi party with nature the Nazis reduced all ethical issues to biological questions *Animal law in the Third Reich* Martina Pluda, 2019-05-27 What do National Socialism and animal law have in common Indeed when talking about animal welfare and species conservation one cannot overlook the fact that the laws emanated in the Third Reich were amongst the first to regulate these matters in a structured and unified manner For obvious reasons though the topic of animal protection in Nazi Germany has been overshadowed by the human tragedy which occurred in this period of history How could the Nazis have been concerned about animals whilst perpetrating appalling acts against humans It would be easy to dismiss their benevolent disposition toward animals as hypocritical Nevertheless several associations can be made between the German attitudes towards nature the Nazi ideological and behavioural dynamics and the subsequent provisions Undoubtedly the question on the authenticity of the motivations behind the Nazi animal welfare and protection movement is difficult to answer However there are enough references to give some indication as to their true intentions to create a progressive legislative framework or a legal veil for propaganda From German Romanticism to anti-Semitism this book bridges the gap between two seemingly unrelated topics

The Holocaust and the Henmaid's Tale Karen Davis, 2005 In a thoughtful and thought provoking contribution to the study of animals and the Holocaust Karen Davis makes the case that significant parallels can and must be drawn between the Holocaust and the institutionalized abuse of billions of animals in factory farms Carefully setting forth the conditions that must be met when one instance of oppression is used metaphorically to illuminate another Davis demonstrates the value of such comparisons in exploring the invisibility of the oppressed historical and hidden suffering the idea that some groups were made to serve others through suffering and sacrificial death and other concepts that reveal powerful connections between animal and human experience as well as human traditions and tendencies of which we all should be aware *The Palgrave Handbook of Holocaust Literature and Culture* Victoria Aarons, Phyllis Lassner, 2020-01-24 The Palgrave Handbook of Holocaust Literature and Culture reflects current approaches to Holocaust literature that open up future thinking on Holocaust representation The chapters consider diverse generational perspectives survivor writing second and third generation and genres memoirs poetry novels graphic narratives films video testimonies and other forms of literary and cultural expression In turn these perspectives create interactions among generations genres temporalities and cultural contexts The volume also participates in the ongoing project of responding to and talking through moments of rupture and incompleteness that represent an opportunity to contribute to the making of meaning through the continuation of narratives of the past As such the chapters in this volume pose options for reading Holocaust texts offering openings for further discussion

and exploration The inquiring body of interpretive scholarship responding to the Shoah becomes itself a story a narrative that materially extends our inquiry into that history

Thomas Pynchon's Animal Tales Keita Hatooka, 2022-08-29 Throughout his works Thomas Pynchon uses various animal characters to narrate fables that are vital to postmodernism and ecocriticism Thomas Pynchon's Animal Tales Fables for Ecocriticism examines case studies of animal representation in Pynchon's texts such as alligators in the sewer in *V* the alligator purse in *Bleeding Edge* dolphins in the Miami Seaquarium in *The Crying of Lot 49* dodos pigs and octopuses in *Gravity's Rainbow* Bigfoot and Godzilla in *Vineland* and *Inherent Vice* and preternatural dogs and mythical worms in *Mason Dixon* and *Against the Day* Through this exploration Keita Hatooka illuminates how radically and imaginatively the legendary novelist depicts his empathy for nonhuman beings Furthermore by conducting a comparative study of Pynchon's narratives and his contemporary documentarians and thinkers Thomas Pynchon's Animal Tales leads readers to draw great lessons from the fables which stimulate our ecocritical thought for tomorrow

The Future of Trauma Theory Gert Buelens, Samuel Durrant, Robert Eaglestone, 2013-10-30 This collection analyses the future of trauma theory a major theoretical discourse in contemporary criticism and theory The chapters advance the current state of the field by exploring new areas asking new questions and making new connections Part one History and Culture begins by developing trauma theory in its more familiar post deconstructive mode and explores how these insights might still be productive It goes on via a critique of existing positions to relocate trauma theory in a postcolonial and globalized world theoretically aesthetically and materially and focuses on non Western accounts and understandings of trauma memory and suffering Part two Politics and Subjectivity turns explicitly to politics and subjectivity focussing on the state and the various forms of subjection to which it gives rise and on human rights biopolitics and
