from the page to the screen and cinematic icons spawning comics of their own *Movie Comics* is the first book to study the long history of both comics to film and film to comics adaptations covering everything from silent films starring Happy Hooligan to sound films and serials featuring Dick Tracy and Superman to comic books starring John Wayne Gene Autry Bob Hope Abbott Costello Alan Ladd and Dean Martin and Jerry Lewis With a special focus on the Classical Hollywood era Blair Davis investigates the factors that spurred this media convergence as the film and comics industries joined forces to expand the reach of their various brands While analyzing this production history he also tracks the artistic coevolution of films and comics considering the many formal elements that each medium adopted and adapted from the other As it explores our abiding desire to experience the same characters and stories in multiple forms *Movie Comics* gives readers a new appreciation for the unique qualities of the illustrated page and the cinematic moving image
