Approaches to Audience Mary Jo Reiff, 2004-06 *Postcolonial Audiences* Bethan Benwell, James Procter, Gemma Robinson, 2012-03-12 Without readers and audiences viewers and consumers the postcolonial would be literally unthinkable And yet postcolonial critics have historically neglected the modes of reception and consumption that make up the politics and pleasures of meaning making during and after empire Thus while recent criticism and theory has made large claims for reading as an ethical act as a means of establishing collective quasi political consciousness as identification with difference as a mode of resistance and as an impulsion to the public imagination the reader in postcolonial literary studies persists as a shadowy figure This collection answers the now pressing need for a distinctively postcolonial take on the rapidly expanding area of reader and reception studies Written by some of the top scholars in the field these essays reveal readers and reception to be varied and profoundly unstable subjects that challenge many of our assumptions and preconceptions of the postcolonial from the notion of reading as national fellowship to the demands of an ethics of reading
