Archaeoastronomy In Pre Columbian America:

Archaeoastronomy in Pre-Columbian America American Association for the Advancement of Science, 1975 Written by leading specialists the papers in this volume explore the newly developed interdisciplinary field of archaeoastronomy Their value is enhanced by extensive citation of data for that part of America north of Panama They provide an excellent introduction to the growing field of archaeoastronomy Three broad interlocking topics are discussed early American rock art in the southwestern United States astronomical orientations of buildings and native American calendars

Archaeoastronomy in Pre-Columbian America Anthony Francis Aveni, 1977 **Archaeoastronomy and the Maya** Gerardo Aldana y Villalobos, Edwin L. Barnhart, 2014-05-30 Archaeoastronomy and the Maya illustrates archaeoastronomical approaches to ancient Mayan cultural production The book is contextualized through a history of archaeoastronomical investigations into Mayan sites originating in the 19th century discovery of astronomical tables within hieroglyphic books Early 20th century archaeological excavations revealed inscriptions carved into stone that also preserved astronomical records along with architecture that was built to reflect astronomical orientations These materials provided the basis of a growing professionalized archaeoastronomy blossoming in the 1970s and expanding into recent years The chapters here exemplify the advances made in the field during the early 21st century as well as the on going diversity of approaches presenting new perspectives and discoveries in ancient Mayan astronomy that result from recent studies of architectural alignments codices epigraphy iconography ethnography and calendrics More than just investigations of esoteric ancient sciences studies of ancient Mayan astronomy have profoundly aided our understanding of Mayan worldviews Concepts of time and space meanings encoded in religious art intentions underlying architectural alignments and even methods of political legitimization are all illuminated through the study of Mayan astronomy James Turrell Craig Adcock, 2023-12-22 The Art of Light and Space is the first major overview of one of the most independent and accomplished artists of our time For the benefit of art historians artists and the general reader Craig Adcock examines with the support of many illustrations the full range of James Turrell's life and art He gives special attention to the artist's fashioning of light and space to create works of great contemplative beauty intellectual depth and technical sophistication Adcock explains how Turrell's work has developed to address the very nature of visual perception its wonders and its limitations Presented in the context of developments in contemporary art since the 1960s Turrell's non object pieces his light projections and large scale installations and his monumental work in progress the Roden Crater project take on a significance and integrity that have not previously been fully revealed Turrell's work has been collected and exhibited widely and he has received a number of important grants including the prestigious MacArthur Foundation Prize The Art of Light and Space is the first major overview of one of the most independent and accomplished artists of our time For the benefit of art historians artists and the general reader Craig Adcock examines with the support of many illustrations Archaeoastronomy in the Old World D.
