Archaeological Approaches To Medieval Europe Studies In Medieval Culture No 18:

Case Studies in European Prehistory Peter Bogucki, 2023-05-09 This book provides a broad overview of the current research questions facing archaeologists working in Europe The book uses a case study method in which a number of archaeologists discuss their work and reflect on their goals and approaches The emphasis is on the intellectual process of archaeology not just the techniques and results Chronological coverage is provided from the Mesolithic to the Iron Age and over much of the European continent *Routledge Revivals: Medieval Archaeology (2001)* Pam J. Crabtree, 2017-07-05 Cover Title Copyright Original Title Original Copyright Dedication Contents Preface Acknowledgments Contributors Site Entries by Country Subject Guide Entries A to Z A B C D E F G H I J K L M N O P Q R S T U V W Index Medieval Archaeology Pamela Crabtree, 2013-05-13 This is the first reference work to cover the archaeology of medieval Europe No other reference can claim such comprehensive coverage from Ireland to Russia and from Scandinavia to Italy the archaeology of the entirety of medieval Europe is discussed **Paradigms and Methods in Early Medieval Studies** C. Chazelle, F. Lifshitz, 2016-04-30 The articles in this volume by scholars all pursuing careers in the United States concern the theoretical approaches and methods of early medieval studies Most of the issues examined span the period from roughly 400 to 1000 CE and regions stretching from westernmost Eurasia to the Black Sea and the Baltic This is the first volume of essays explicitly to reassess the heuristic structures and methodologies of research on early medieval Europe Because of its geographic chronological thematic and methodological diversity and scope the collection also showcases the breadth of early medieval studies currently practiced in the United States *Kingship, Legislation and Power in Anglo-Saxon England* Gale R. Owen-Crocker, Brian W. Schneider, 2013 The relationship between Anglo Saxon kingship law and the functioning of power is explored via a number of different angles The essays collected here focus on how Anglo Saxon royal authority was expressed and disseminated through laws delegation relationships between monarch and Church and between monarchs at times of multiple kingships and changing power ratios Specific topics include the importance of kings in consolidating the English nation the development of witnesses as agents of the king s authority the posthumous power of monarchs how ceremonial occasions were used for propaganda reinforcing heirarchic but mutually beneficial kingships the implications of the lawcode and the language of legislation when English kings were ruling previously independent territories and the delegation of local rule The volume also includes a groundbreaking article by Simon Keynes on Anglo Saxon charters looking at the origins of written records the issuing of royal diplomas and the process circumstances performance and function of production of records GALE R OWEN CROCKER is Professor of Anglo Saxon Culture at the University of Manchester Contributors Ann Williams Alexander R Rumble Carole Hough Andrew Rabin Barbara Yorke Ryan Lavelle Alaric Trousdale **Books in Series** , 1985 Vols for 1980 issued in three parts Series Authors and Titles **Art, Power, and Resistance in the Middle Ages** Pamela A. Patton, 2025-01-07 This volume addresses a vital point of intersection between images in the

Middle Ages and those in the modern world the potential of medieval works of art to convey messages of power and resistance Provoked by the misuse of medieval imagery in modern discussions the contributors to this volume assess how medieval images connect to discourses of power in both the past and the present The contributors each began with a single question In the eyes of their makers and viewers how were medieval images understood to assert or to resist forces of power Their case studies come from a wide range of cultural geographic and historical contexts the Byzantine Ottonian and Valois courts the Umayyad and Castilian regimes of the Iberian Peninsula the pluralistic military and commercial zones of the eastern Mediterranean and the metaphorical as well as personal battlegrounds linked to medieval courtly love culture Over eight chapters the authors highlight patterns of visual rhetoric still evident in art today They invite readers to contemplate how modern priorities and sensibilities might amplify mute or transform the discourses related to power and resistance that were threaded through the visual culture of the Middle Ages This insightful book should be of value to anyone interested in medieval art history and art s relationship to power and authority in society In addition to the editor the contributors include Heather A Badamo Elena N Boeck Thomas E A Dale Martha Easton Eliza Garrison Anne D Hedeman Tom Nickson and Avinoam Shalem Library Catalog of the Metropolitan Museum of Art, New York Metropolitan Museum of Art (New York, N.Y.). Library,1987 **Landscape and Society in Dumnonia** Stephen Rippon,2025-08-15 Explores South West England s development from the Iron Age through medieval times focusing on Ipplepen This book explores the distinctive landscape and society of South West England that had emerged by the Iron Age and which continued to develop during the Roman and medieval periods A focus of the research was the long term programme of survey and excavation on the Iron Age Roman and early medieval settlement at Dainton Elms Cross in Ipplepen Devon which included the only Roman roadside settlement to have seen extensive excavation to the south and west of Exeter on the very edge of the Roman empire as well as a substantial early medieval cemetery First discovered through the reporting of an unusual concentration of Roman finds to the Portable Antiquities Scheme the site was investigated through a joint university and community project led by the University of Exeter in partnership with the British Museum PAS Devon County Council and Cotswold Archaeology What for the South West of England was exceptional preservation meant that large amounts of animal bone charred cereals and human remains were preserved alongside a regionally important material culture assemblage The site which had been occupied for c 1200 years was abandoned around the 8th century AD A programme of documentary place name and historic landscape research across a study area extending from the coast up onto Dartmoor explores the context of this major landscape change which appears to have been associated with the appearance of hamlets and open fields and the fragmentation of an early folk territory Together the excavations in Ipplepen and the wider contextual research reveal how communities living in South West England developed a distinctive identity that reflects a well developed understanding of their region s natural environment alongside a degree of ambivalence to outside cultural influences **Bulletin of the Florida Museum of Natural History**
