Approches De La Prison:

Approches de la prison Claude Faugeron, Antoinette Chauvenet, Philippe Combessie, 1996 Approche systémique des institutions de soins Thierry Albernhé, Karine Albernhé, 2020-10-06 L institution est la fois un syst me dans lequel tous les membres qu ils soient soignants ou patients sont en interrelations d pendant les uns des autres de l organisation fonctionnelle et hi rarchique ainsi que du lieu lui m me mais galemment un cadre de soins pour les patients qui peut tre s curisant ou au contraire contre productif par rapport aux objectifs du soin Troisi me ouvrage du triptyque consacr aux th rapies syst miques Les th rapies familiales syst miques et Applications en th rapie familiale syst mique cet ouvrage tend le champ d application de la pens e syst mique aux institutions de soins plus particulirement en psychiatrie et en sant mentale associant la r flexion du questionnement syst mique la pratique des soignants de terrain ainsi que des dirigeants d institutions rappelant les concepts l origine de la syst mie par exemple comment le fonctionnement ou dysfonctionnement d une structure de soins peut impacter la prise en charge des patients L ouvrage est illustr de nombreux exemples concrets de situations auxquelles peut se trouver confront e une quipe au quotidien que faire face une personnalit qui perturbe et ou remet en cause le fonctionnement de l institution Comment construire un projet de soins collectif au sein d une quipe Que peut apporter l institution au patient en termes de soutien de s curit de rep res etc Cet ouvrage s adresse aux psychiatres psychologues et psychoth rapeutes aux infirmiers et ducateurs et plus largement aux professionnels exer ant dans le large champ de la sant mentale qu ils soient d cideurs et responsables d institutions ou de structures personnels de terrain s occupant de souffrance psychique au quotidien Ils y trouveront des cl s pour comprendre la pertinence de la pens e syst mique dans les institutions o ils exercent des illustrations de situations concr tes et v cues ainsi que des exercices pratiques r aliser seul et ou en quipe Principles of European Prison Law and Policy Dirk van Zyl Smit, Sonja Snacken, 2009-01-08 In recent years European prison law and policy have emerged as a force to be reckoned with This book explores its development and analyses the penological and human rights foundations on which it is based It examines the findings of the European Committee for the Prevention of Torture the recommendations of the Council of Europe and the judgments of the European Court of Human Rights From these sources it makes the general principles that underlie European prison law and policy explicit emphasising the principle of using imprisonment as a last resort and the recognition of prisoners rights The book then moves on to apply these principles to conditions of imprisonment regimes in prison contacts between prisoners and the outside world and the maintenance of good order in prisons The final chapter of the book considers how European prison law and policy could best be advanced in future The authors argue that the European Court of Human Rights should adopt a more proactive approach to ensuring that imprisonment is used only as a last resort and that a more radical interpretation of the existing provisions of the European Convention on Human Rights will allow it to do so It concludes that the growing cooperation on prison matters within Europe bodes well for the increased recognition of prisoners rights across

Europe In spite of some countervailing voices Europe should increasingly be able to give an international lead in a human rights approach to prison law and policy in the same way it has done with the abolition of the death penalty *The Palgrave Handbook of Prison Ethnography* Deborah H. Drake, Rod Earle, J. Sloan, 2016-01-12 The Palgrave Handbook of Prison Ethnography provides an expansive overview of the challenges presented by qualitative and particularly ethnographic enquiry The chapters reflect upon the means by which ethnographers aim to gain understanding make sense of what they learn and the way they represent their finished work The Handbook offers urgent insights relevant to current trends in the growth of imprisonment worldwide In an era of mass incarceration human centric ethnography provides an important counter to quantitative analysis and the audit culture on which prisons are frequently judged The Handbook is divided into four parts Part I About Prison Ethnography assesses methodological theoretical and pragmatic issues related to the use of ethnographic and qualitative enquiry in prisons Part II Through Prison Ethnography considers the significance of ethnographic insights in terms of wider social or political concerns Part III Of Prison Ethnography analyses different aspects of the roles ethnographers take and how they negotiate their research settings Part IV For Prison Ethnography includes contributions that convincingly extend the value of prison ethnography beyond the prison itself Bringing together contributions by some of the world's leading scholars in criminology and prison studies this authoritative volume maps out new directions for future research It will be an indispensable resource for practitioners students academics and researchers who use qualitative social research methods to further their understanding of prisons *The Routledge Handbook of European Criminology* Sophie Body-Gendrot, Mike Hough, Klara Kerecsi, René Lévy, Sonja Snacken, 2013-08-15 This new book brings together some of the leading criminologists across Europe to showcase the best of European criminology This Handbook aims to reflect the range and depth of current work in Europe and to counterbalance the impact of the sometimes insular and ethnocentric Anglo American criminological tradition The end product is a collection of twenty eight chapters illustrating a truly comparative and interdisciplinary European criminology The editors have assembled a cast of leading voices to reflect on differences and commonalities elaborate on theoretically grounded comparisons and reflect on emerging themes in criminology in Europe After the editors introduction the book is organised in three parts five chapters offering historical theoretical and policy oriented overviews of European issues in crime and crime control seven chapters looking at different dimensions of crime in Europe including crime trends state crime gender and crime and urban safety fifteen chapters examining the variety of institutional responses exploring issues such as policing juvenile justice punishment green crime and the role of the victim This book gives some indication of the richness and scope of the emerging comparative European criminology and will be required reading for anyone who wants to understand trends in crime and its control across Europe It will also be a valuable teaching resource especially at postgraduate level as well as an important reference point for researchers and scholars of criminology across Europe **Imprisonment Today and Tomorrow** D. van

Zijl-Smit, Frieder Dünkel, 2021-11-22 Are more people being imprisoned throughout the world Why is imprisonment still being used on a wide scale when an increasing number of alternatives are available What are the major developments in prison law in the last decade What problems arise in prison systems when states become constitutional democracies for the first time Should prisons be privatized How can prison conditions and prisoners rights be improved What special measures should there be for women juveniles violent offenders or drug addicts in prison What programmes work effectively under which conditions The second edition of Imprisonment Today and Tomorrow presents much fresh information in its attempts to provide answers to these and other crucial questions It provides authoritative accounts by leading national experts on the place of imprisonment in 26 penal systems of major countries throughout the world In addition through the chapters on the work of the European Committee for the Prevention of Torture and Inhuman and Degrading Punishment non governmental organizations and the United Nations it sheds new light on international initiatives to promote prison standards These are complemented by a comparative survey of world prison populations and a final chapter in which the editors evaluate developments described in this volume and elsewhere in order to arrive at conclusions about international trends and to make well grounded proposals for prison reform

Sport and prisons in Europe Gaëlle Sempé, 2018-12-17 Improve the well being of prisoners in detention enable them to change their behavior and attitudes develop their ability to live together learn to respect others and abide by the rules and thus facilitate their reintegration into society these are the objectives of a prison sports policy There has been growing recognition of the value of sport by the prison system Its effects are highly beneficial to those in detention and to prison life in general However looking at the objectives through to the challenges we can see that the link between sport and prison is a complex one and in order to understand it better and to see what lessons can be learned an in depth thinking process is required based on current scientific knowledge in this field and on state policies and practices being implemented in prisons In the framework of its activities promoting diversity in and through sport the Enlarged Partial Agreement on Sport EPAS of the Council of Europe has been working on the subject of sport and prison since 2013 in close connection with the Council for Penological Co operation PC CP Following an expert seminar organised in Strasbourg in 2013 a pan European conference was held in Paris in 2014 The results of a survey which highlighted the numerous examples of good practice regarding sports programmes were discussed The conference highlighted the need to record the different points of view regarding sport in prison at a pan European level in order to identify the real challenges Gaëlle Sempé is a lecturer in sociology sports science and physical education training STAPS and teacher researcher at Rennes University 2 Mr Vivian Geiran author of the foreword is chair of the Council for Penological Co operation PC CP of the Council of Europe The Enlarged Partial Agreement on Sport EPAS is an agreement between a number of Council of Europe member states 38 as of 1 January 2018 which have decided to co operate in the field of sports policy As an enlarged agreement EPAS is open to non member states It works in co operation with relevant organisations in particular with

representatives of the sports movement Prisons, Inmates and Governance in Latin America Máximo Sozzo, 2022-04-29
This edited collection addresses the topic of prison governance which is crucial to our understanding of contemporary prisons in Latin America. It presents social research from Nicaragua, the Dominican Republic, Venezuela, Colombia, Ecuador, Brazil, Peru, Uruguay, and Argentina to examine the practices of governance by the prisoners themselves in each unique setting in detail. High levels of variation in the governance practices are found to exist not only between countries but also within the same country between prisons and within the same prison and between different areas. The chapters make important contributions to the theoretical concepts and arguments that can be used to interpret the emergence, dynamics, and effects of these practices in the institutions of confinement of the region. The book also addresses the complex task of explaining why these types of practices of governance happen in Latin American prisons as some of them appear to be a legacy of a remote past but others have arisen more recently. It makes a vital contribution to the fundamental debate for prison policies in Latin America about the alternatives that can be promoted **Prisons of Poverty** Loïc J. D. Wacquant, 2009
In this title, the author examines how penal policies emanating from the United States have spread throughout the world. The author argues that the policies have their roots in a network of Reagan-era conservative think tanks which used them as weapons in their crusade to dismantle the welfare state and in effect criminalise poverty Paris and Its Environs Augustus Pugin, 1831

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
