Arab Locust Hunter:

Arabian Locust Hunter G. F. Walford, 1963 **Creating the Arabian Gulf** Paul J. Rich, 2009-08-16 Even whether to call the Gulf Arabian or Persian is an unending argument Regardless of its name the Gulf is one of the most politically important regions of the world Despite its constant presence in the headlines the fact that it was part of the British Indian empire for many years has gone unappreciated The long period of British control and the connections with India are in fact necessary in understanding the contemporary Middle East With more than ten years of experience as a government advisor in Saudi Arabia and Qatar Paul Rich draws on previously closed archives to document the actual heritage of the area and dispel the myths Rich shows that the influences of Britain and India are far deeper than commonly acknowledged and that the sheikhs are actually the creation of the British Raj He explains that they owe their thrones to a small group of British political agents the Heaven Born who created the satraps and then proceeded to rule from behind the scenes by a clever use of stagecraft and ritual that was heavily flavored by their experiences at English public schools and in Masonic lodges In its attempt to make sense of the complexity of Arab sheikhdoms in the Gulf *Creating the Arabian Gulf* is an ideal book for students and scholars interested in Middle East studies and international relations

Operation Mincemeat Ben Macintyre, 2010 Chronicles World War II's pivotal deception by two British naval officers who successfully fed false intelligence to the Nazis about where Allied forces were planning an attack in southern Europe

Fibs, Facts and Farces - Tales from the Arab World John Carter, 2012 The recent history of the Arab World presents a dismal story of pain horror and suffering The causes are many and the blame game endless However the happy experiences of one Englishman throw a quite contrary light on current events and have been written down as a way of saying thank you to all the Arabians involved for their unrivalled hospitality and friendship as well as for sharing so much hilarious merriment The author has collected stories over the course of many years that highlight not only the essential dottiness of his own country's activities in the area but also unveil the tremendous humour that the Arabs themselves possess In this volume these tales are recorded many for the first time and have been added to by extensive research into the relevant literature to provide important background material reference and explanation To understand the humour of a race or nation is to understand and appreciate their culture and characteristics and reach a common ground Whatever your nationality *Fibs Facts and Farces Tales from the Arab World* will have you holding your sides

Inlands Robert S. G. Fletcher, Alec Zuercher Reichardt, 2024-12-31 Conventional narratives of empires and globalization focus on oceans and coasts supposing that global connections are seaborne and that historical change proceeds inward from port cities into continental expanses This book offers a new perspective examining key inland areas around the world to show how interior regions have shaped global history *Inlands* brings together an interdisciplinary group of experts to explore the modern histories of inland regions across North and South America Africa Eurasia and Australasia from the American heartland to the Yangzi valley the Great Dismal Swamp to the Arabian Desert Together they

argue that interior regions provide a fresh vantage point from which to rethink the history of global connection and disconnection Each chapter reconsiders national regional or imperial histories from an inland perspective demonstrating how such places have spurred global change Contributors reveal the critical role inlands and their Indigenous inhabitants have played in the development projection and contestation of state power showing how some interiors became essential to empire even as others developed in resistance to it By examining the struggle to integrate inland regions into wider networks of exchange this book also sheds light on the unevenness and the limits of contemporary globalization A new global history of interior spaces Inlands presents a bold challenge to dominant understandings of the making of today s connected world

Arabian Locust Hunter ... Illustrated and with Maps G. F.
