Arch Of Desire:

The Roots of Urban Renaissance Brian D. Goldstein,2023-03-14 An acclaimed history of Harlem s journey from urban crisis to urban renaissance With its gleaming shopping centers and refurbished row houses today s Harlem bears little resemblance to the neighborhood of the midcentury urban crisis Brian Goldstein traces Harlem s Second Renaissance to a surprising source the radical social movements of the 1960s that resisted city officials and fought to give Harlemites control of their own destiny Young Harlem activists inspired by the civil rights movement envisioned a Harlem built by and for its low income predominantly African American population In the succeeding decades however the community based organizations they founded came to pursue a very different goal a neighborhood with national retailers and increasingly affluent residents The Roots of Urban Renaissance demonstrates that gentrification was not imposed on an unwitting community by unscrupulous developers or opportunistic outsiders Rather it grew from the neighborhood s grassroots producing a legacy that benefited some longtime residents and threatened others

Cancer and Sexual Health John P Mulhall, Luca Incrocci, Irwin Goldstein, Ray Rosen,2011-04-23 The average physician and even cancer care givers are not knowledgeable about the effects of cancer treatment on sex and reproductive life They are even less aware of the options available for treatment of such patients *Cancer and Sexual Health* fills a great need for a reference work devoted to the link between cancer and human sexuality The volume is designed to give a comprehensive and state of the art review of the sexual and reproductive consequences of cancer diagnosis and treatment It will prove an invaluable resource for those clinicians caring for cancer patients as well as acting as a reference text for the sexual medicine clinician who may not see a large number of cancer patients
