Archaeological Ethics

**Mark J. Lynott, Alison Wylie, Society for
American Archaeology**

Archaeological Ethics:

The Ethics of Archaeology Chris Scarre, Geoffrey Scarre, 2006-01-19 The question of ethics and their role in archaeology has stimulated one of the discipline's liveliest debates. In this collection of essays first published in 2006, an international team of archaeologists, anthropologists, and philosophers explore the ethical issues archaeology needs to address. Marrying the skills and expertise of practitioners from different disciplines, the collection produces interesting insights into many of the ethical dilemmas facing archaeology today. Topics discussed include relations with indigenous peoples, the professional standards and responsibilities of researchers, the role of ethical codes, the notion of value in archaeology, concepts of stewardship and custodianship, the meaning and moral implications of heritage, the question of who owns the past or the interpretation of it, the trade in antiquities, the repatriation of skeletal material, and treatment of the dead. This important collection is essential reading for all those working in the field of archaeology, be they scholar or practitioner. *Ethical Issues in Archaeology* Larry J. Zimmerman, Karen D. Vitelli, Julia J. Hollowell, 2003-04-02 Edited

volume exploring key issues in ethics for archaeologists. Visit our website for sample chapters. **Archaeological Ethics** Karen D. Vitelli, Chip Colwell-Chanthaphonh, 2006-02-09 The second edition of *Archaeological Ethics* is an invitation to an ongoing and lively discussion on ethics. In addition to topics such as looting, reburial, and repatriation, relations with native peoples and professional conduct, Vitelli and Colwell-Chanthaphonh have responded to current events and news stories. Twenty-one new articles expand this ongoing discussion into the realm of intellectual property, public outreach, archaeotourism, academic freedom, archaeological concerns in times of war, and conflicting values. These compelling articles from *Archaeology Magazine*, *American Archaeology*, and *Expedition* are written for a general audience and provide a fascinating introduction to the issues faced every day in archaeological practice. The article summaries, discussion, and research questions and suggestions for further reading, particularly helpful given the vast increase in related literature over the last decade, serve as excellent teaching aids and make this volume ideal for classroom use. **Ethics in American**

Archaeology Mark J. Lynott, Alison Wylie, Society for American Archaeology, 1995 *Ethics in Action* Chip Colwell-Chanthaphonh, Julie Hollowell, Dru McGill, 2008-03-01 Based on the Society for American Archaeology's Annual Ethics Bowl, this SAA Press book is centered on a series of hypothetical case studies that challenge the reader to think through the complexities of archaeological ethics. The volume will benefit undergraduate and graduate students who can either use these cases as a classroom activity or as preparation for the Ethics Bowl, as well as those who are seeking to better understand the ethical predicaments that face the discipline. *Ethics and Archaeological Praxis* Cristóbal Gnecco, Dorothy Lippert, 2014-11-10 Restoring the historicity and plurality of archaeological ethics is a task to which this book is devoted. Its emphasis on praxis mends the historical condition of ethics. In doing so, it shows that nowadays a multicultural, sometimes also called public ethic, looms large in the discipline. By engaging communities differently, archaeology has explicitly adopted

an ethical outlook purportedly striving to overcome its colonial ontology and metaphysics In this new scenario respect for other historical systems worldviews and social accountability appear to be prominent Being ethical in archaeological terms in the multicultural context has become mandatory so much that most professional international and national archaeological associations have ethical principles as guiding forces behind their openness towards social sectors traditionally ignored or marginalized by their practices This powerful new ethics its newness is based to a large extent in that it is the first time that archaeological ethics is explicitly stated as if it didn't exist before emanates from metropolitan centers only to be adopted elsewhere In this regard it is worth probing the very nature of the dominant multicultural ethics in disciplinary practices because a it is at least suspicious that at the same time archaeology has tuned up with postmodern capitalist market needs and b the discipline along with its ethical principles is contested worldwide by grass roots organizations and social movements Can archaeology have socially committed ethical principles at the same time that it strengthens its relationship with the market and capitalism Is this coincidence just merely haphazard or does it obey more structural rules The papers in this book try to answer these two questions by examining praxis based contexts in which archaeological ethics unfolds

Ethics and Values in Archaeology Ernestene L. Green, 1984 **Ethical Issues in Archaeology** Larry J.

Zimmerman, 2003 A brief guide to cultural resource managers on how to manage public archaeological sites **Ethics in Archaeological Practice** Paul Belford, Gerry Wait, 2025-06-30 Ethics in Archaeological Practice focuses on the ethics of archaeological work in a European context This book covers all aspects of the archaeological profession including archaeological advisors employed by state national or regional heritage agencies commercial archaeologists consultants and contractors and academics It considers all archaeologists as professionals and situates ethical practice at the heart of what it means to be a professional archaeologist It works as a practical handbook organised around the main areas of activity that archaeologists undertake allowing the book to be used as a reference work when required Ethics in Archaeological Practice will appeal to professional archaeologists academics and students as well as those involved in professional training
