The Maya and Their Central American Neighbors Geoffrey E. Braswell, 2014-04-16 The ancient Maya created one of the most studied and best known civilizations of the Americas Nevertheless Maya civilization is often considered either within a vacuum by sub region and according to modern political borders or with reference to the most important urban civilizations of central Mexico Seldom if ever are the Maya and their Central American neighbors of El Salvador and Honduras considered together despite the fact that they engaged in mutually beneficial trade intermarried and sometimes made war on each other The Maya and Their Central American Neighbors seeks to fill this lacuna by presenting original research on the archaeology of the whole of the Maya area from Yucatan to the Maya highlands of Guatemala western Honduras and El Salvador With a focus on settlement pattern analyses architectural studies and ceramic analyses this ground breaking book provides a broad view of this important relationship allowing readers to understand ancient perceptions about the natural and built environment the role of power the construction of historical narrative trade and exchange multiethnic interaction in pluralistic frontier zones the origins of settled agricultural life and the nature of systemic collapse

Chase, Arlen F. Chase, 2003-03-01 In *Mesoamerican Elites* Diane Z. Chase and Arlen F. Chase present a wide variety of essays all of which evaluate current archaeological knowledge of the privileged ruling classes or elites in Mesoamerica. Some experts argue that Mesoamerican societies consisted only of elites and peasants while others argue that considerable intermediate social levels also existed. In light of such diverse opinions, this volume addresses problems in the interpretation of archaeological evidence regarding ancient Mesoamerican social structure **State and Society** John Gledhill, Barbara Bender, Mogens Trolle Larsen, 1995 The traditional Eurocentric view of state formation and the rise of civilization is challenged in this broad-ranging book. Bringing archaeological research into contact with the work of ethno-historians and anthropologists, it generates a discussion of fundamental concepts rather than a search for modern analogies for processes that occurred in the past **The Comitán Valley** Caitlin Earley, 2023-07-13 An exploration of the understudied sculpture of the Maya frontier
