MEDINFO 2021: One World, One Health — Global Partnership for Digital Innovation Paula Otero, Philip Scott, Susan Z. Martin, 2022-08-15. The World Health Organization defines health as a state of complete physical, mental, and social well-being, and not merely the absence of disease or infirmity, and its constitution also asserts that health for all people is dependent on the fullest co-operation of individuals and States. The ongoing pandemic has highlighted the power of both healthy and unhealthy information, so while healthcare and public health services have depended upon timely and accurate data and continually updated knowledge, social media has shown how unhealthy misinformation can be spread and amplified, reinforcing existing prejudices, conspiracy theories, and political biases. This book presents the proceedings of MedInfo 2021, the 18th World Congress of Medical and Health Informatics, held as a virtual event from 2-4 October 2021, with pre-recorded presentations for all accepted submissions. The theme of the conference was One World One Health Global Partnership for Digital Innovation, and submissions were requested under 5 themes: information and knowledge management, quality, safety, and outcomes, health data science, human organizational and social aspects, and global health informatics. The Programme Committee received 352 submissions from 41 countries across all IMIA regions, and 147 full papers, 60 student papers, and 79 posters were accepted for presentation after review and are included in these proceedings. Providing an overview of current work in the field over a wide range of disciplines, the book will be of interest to all those whose work involves some aspect of medical or health informatics.

Name Your Story Lauren Cook, 2017-03-30. Young adults feel a lot of pressure these days. Get into the best college, win the soccer tournament, and land the dream internship if you want to be worthy. Sound familiar? With all this stress, it's no wonder that students are saying they feel depressed, anxious, or overwhelmed at an alarmingly high rate. What is especially worrisome is that many of these students are too afraid to seek help. Clearly, it's time for a change. Lauren Cook provides an intentional space where young adults can learn about mental health in a safe way. Here's what you can expect: An overview of signs/symptoms of depression, anxiety, eating disorders, substance abuse, and other conditions. How to get help if you feel stressed, scared, or unwell. How to talk with friends, family members, and partners if you're concerned about them and their wellbeing. What to do if you or someone you know is feeling suicidal. Resources to guide you to further information and support. Lauren also emphasizes the need for self-care. We need to put on our own oxygen mask first before we can help others. By focusing on gratitude, optimism, mindfulness, and remembering how to play, Lauren reminds us how to prioritize our own well-being from a proactive stance.
