Falls, 2007-10 As indicated in the title this is a study in the historical evolution of the major faiths of mankind and their religious beliefs It is

not a study to prove who is right and who is wrong As such it certainly has a different approach to the subject The layout of the subject may not depict the usual traditional approach observed in religious works but it certainly preserves its true historical background This work therefore is mainly historical in its essence The subject matter of this discourse is not only interesting but it is also informative and educational When we talk about the history of mankind we also talk about the origin and the development of their religious beliefs their culture and the social values of their life Theology a critical study of religious ideas a dogmatic approach has often in past been a source of divisions among the people of diverse beliefs and cultures This planet would have been a much better place to live in for all human beings if man had learned to appreciate and respect the religious and cultural beliefs of the people different than those in which he had been brought up Rather than finding differences and keeping alive hatred and dislike for other faiths and beliefs he would have done better if he had understood the common purpose that exists behind all faiths Much has been said and written about the conduct of people who in the name of religion have destabilized the world peace The dangers of such religious polemics are evident in many areas of our planet In the pluralistic world of today no one faith has the monopoly of the Truth People are Christians Jews Hindus Buddhists or Muslims out of their sincere convictions Endowed with the gift of intellect and historical inheritance people have chosen different paths and ways in their search for the Truth We all eat the food grown in the same soil drink water from the same springs and breathe the air from the same atmosphere Even while holding to our own religious views there is no reason why we can not respect and appreciate the beliefs of the others An old Japanese saying goes like this There are many paths at the foot of a mountain but the view of the moon is the same at the top I would consider myself rewarded if through this work I can arouse enough interest in the minds of my readers to know and appreciate the fundamental teachings of all religions namely the understanding of God the Creator of this Universe and Man's relationship with Him

Dangerous Music? - 'Explicit' Lyrics in the United States of America Julian Weller, 2024-07-22 This book discusses the history of music warning labels specifically the Parental Advisory Label PAL and the Parents Music Resource Center PMRC It aims to answer these questions How could the PMRC trigger a debate on music lyrics as a negative influence on children that led to the introduction of the PAL in the long run What did the implementation of the PAL warning mean for musicians and how had the perception of music changed so that the advisory label was deemed necessary The central thesis is that through the discourse on explicit lyrics certain music was marked as an actual threat to children and society and consequently started to be perceived as such By the way in which the discourse evolved and how other actors conducted themselves in the debates this understanding of certain music was repeatedly renegotiated and connected to other current discourses such as discourses on family values sexuality youth culture generational conflicts and social problems Through this the understanding of certain music as a threat to children and society was constantly renewed The book analyses the PMRC's campaign on explicit lyrics and provides insights into their strategy and success from a historical perspective
