A Call From the Haven J.J. Stone, 2013-02-22 In 1977 J.J. Stone would fall deeply in love with Christopher Smith, and they would remain in love throughout his prison conviction for murder, throughout both of their marriages, and throughout the last 28 years since his death. Complicated, beautiful, torturous. Her relationship with Chris Smith was all of the above. Throw in unbelievable, wondrous, spiritual, frustrating, and magical. He has a hold on her to this day that is so complex that some days it seems too powerful to even exist. She nearly destroyed herself trying to save him, and in the end it was a life sentence for murder that gave him his freedom. He wanted this story told so his children would know the truth about the father they never really knew, and she promised she would write it. This is their true life story. *Plains Apache Ethnobotany* Julia A.

Jordan, 2014-10-22 One tribe's traditional knowledge of plants presented for the first time. Residents of the Great Plains since the early 1500s, the Apache people were well acquainted with the native flora of the region. In *Plains Apache Ethnobotany*, Julia A. Jordan documents more than 110 plant species valued by the Plains Apache and preserves a wealth of detail concerning traditional Apache collection, preparation, and use of these plant species for food, medicine, ritual, and material culture. The traditional Apache economy centered on hunting, gathering, and trading with other tribes. Throughout their long history, the Apache lived in or traveled to many different parts of the plains, gaining an intimate knowledge of a wide variety of plant resources. Part of this traditional knowledge, especially that pertaining to plants of Oklahoma, has been captured here by Jordan's fieldwork conducted with elders of the Apache Tribe of Oklahoma in the mid 1960s, a time when much traditional knowledge was being lost. *Plains Apache Ethnobotany* is the most comprehensive ethnobotanical study of a southern plains tribe. Handsomely illustrated, this book is a valuable resource for ethnobotanists, anthropologists, historians, and anyone interested in American Indian use of native plants.
