Blue Eyed Tarokaja A Donald Keene Anthology:

The Blue-Eyed Tarokaja Donald Keene, 1996-06-27 The preeminent Western authority on Japanese literature presents a collection of personal essays and literary vignettes that offers a fresh and personal insight into his prolific career as a writer and translator, traveler and social observer. *The Blue-eyed Tarōkaja* Donald Keene, 1999. [Deciphering the Rising Sun](#) Roger Dingman, 2009-07-01 This book is about Americans not of Japanese ancestry who served as Japanese language officers in World War II. Covering the period 1940-1945, it describes their selection, training and service in the Navy and Marine Corps during the war and their contributions to maintenance of good relations between America and Japan thereafter. It argues that their service as code breakers and combat interpreters hastened victory and that their cross-cultural experience and linguistic knowledge facilitated the successful dismantling of the Japanese Empire and the peaceful occupation of Japan. The book shows how the war changed relations between the Navy and academia, transformed the lives of these 1200 men and women and set onetime enemies on course to enduring friendship. Its purpose is twofold: to reveal an exciting and hitherto unknown aspect of the Pacific War and to demonstrate the enduring importance of linguistic and cross-cultural knowledge within America's armed forces in war and peace alike. The book is meant for the general reader interested in World War II as well as academic specialists and other persons particularly interested in that conflict. It will also appeal to readers with an interest in America's intelligence establishment and to those interested in Japan and its relations with the United States. This history tells an exciting and previously unknown story of men and women whose brains and devotion to duty enabled them to learn an extraordinarily difficult language and use it in combat and ashore to hasten Japan's defeat and transformation from enemy to friend of America. [Narrative as Counter-Memory](#) Reiko Tachibana, 1998-07-30 A pioneering study of German and Japanese postwar fiction providing a broad cultural basis for understanding a half-century of responses to World War II from within the two societies. *Studies on a Global History of Music* Reinhard Strohm, 2018-04-09 The idea of a global history of music may be traced back to the Enlightenment and today the question of a conceptual framework for a history of music that pays due attention to global relationships in music is often raised. But how might a historical interpretation of those relationships proceed? How should it position or justify itself? What would Western music look like in an account of music history that aspires to be truly global? The studies presented in this volume aim to promote post-European historical thinking. They are based on the idea that a global history of music cannot be one single hegemonic history. They rather explore the paradigms and terminologies that might describe a history of many different voices. The chapters address historical practices and interpretations of music in different parts of the world from Japan to Argentina and from Mexico to India. Many of these narratives are about relations between these cultures and the Western tradition; several also consider socio-political and historical circumstances that have affected music in the various regions. The book addresses aspects that Western musical historiography has tended to neglect even when looking at its own culture: performance, dance, nostalgia.

topicality enlighten the relationships between traditional classical and pop musics and the regards cross between European Asian or Latin American interpretations of each other's musical traditions These studies have been derived from the Balzan Musicology Project Towards a Global History of Music 2013-2016 which was funded by the International Balzan Foundation through the award of the Balzan Prize in Musicology to the editor and designed by music historians and ethnomusicologists together A global history of music may never be written in its entirety but will rather be realised through interaction practice and discussion in all parts of the world Asian Survey ,1961 **THE JOURNAL OF ASIAN STUDIES VOL. 55 NO. 2** ,1996 Library Journal ,1996 *Current Contents* Institute for Scientific Information (Philadelphia),1997 **Arts & Humanities Citation Index** ,1998
