Blueprint For Action On Breastfeeding:

Breastfeeding United States. Department of Health and Human Services. Office on Women's Health, 2000 *Blueprint for Action on Breastfeeding* Suzanne G. Haynes, 2001-04-01 Breastfeeding is one of the most important contributors to infant and maternal health and it also contributes economic benefits to the family health care system and workplace The Surgeon General asked the Office on Women's Health to draw up this Blueprint for Action on Breastfeeding which establishes a comprehensive breastfeeding policy for the nation It introduces an action plan for breastfeeding based on education training awareness support and research The plan includes key recommendations that were refined by the members and reviewers of the Subcommittee on Breastfeeding during their deliberations of science based findings **Breastfeeding** Sarah W. Ying, 2005 The rate of breastfeeding in the United States has risen and fallen over time as a result of changing lifestyles and the availability of substitutes for human milk However since the 1970s the rates of breastfeeding initiation and duration have increased in part due to the increasing medical evidence of the significant health benefits both to mothers and children The federal government's Health Objectives for 2010 are for 75% of mothers to initiate breastfeeding at the time of birth and for 50% to continue breastfeeding until their infants reach 6 months of age Current rates are about 69.5% at the time of hospital discharge and 32.5% at 6 months of age The health benefits to the infant include the high nutritional quality of human milk and a decrease in various infectious and other diseases of infancy that are reduced by the anti microbial anti inflammatory and immunological stimulating agents present Mothers seem to benefit with a more rapid return to the pre pregnancy state of their bodies improved glucose and lipid metabolism delayed ovulation and the possible reduction of certain cancers This new book examines the impact on health employment and society laws and government support of this important health action **Breastfeeding and Human Lactation** Karen Wambach, Becky Spencer, 2019-10-01 Breastfeeding and Human Lactation Sixth Edition is the ultimate reference for the latest clinical techniques and research findings that direct evidence based clinical practice for lactation consultants and specialists It contains everything a nurse lactation consultant midwife women's health nurse practitioner physician assistant or Ob Gyn needs to know about the subject Topics include placing breastfeeding in its historical context workplace related issues anatomical and biological imperatives of lactation the prenatal and perinatal periods and concerns during the postpartum period the mother's health sociocultural issues and more vital information Reclaiming Breastfeeding for the United States Karin Cadwell, Cindy Turner-Maffei, 2002 This book is about the progress the United States health care system has made towards reclaiming breastfeeding as the normal way to feed babies and young children **Breastfeeding and Human Lactation** Jan Riordan, 2005 Now in its Third Edition this text has been updated to reflect new knowledge in the physiology of breastfeeding milk supply positioning the management of breastfeeding and the role of the lactation consultant The text is divided into 5 sections that cover the sociocultural context of infant feeding anatomy and biological imperatives the prenatal perinatal and postnatal periods beyond postpartum and

contemporary issues **Breastfeeding** Janet Dalzell, Elizabeth Rogerson, 2018-10-08 In recent decades global healthcare professionals and organisations have formed a wide evidence based consensus that breastfeeding is usually the best option for both mother and baby However women and professionals alike often face a sea of shifting attitudes and values and complex social cultural political and economic factors that may influence women s feeding decisions This book examines the global evidence and the factors that affect women s decisions around initiating breastfeeding and maintaining it through the first year of their children s lives It outlines potential areas for development and policy change at practitioner and strategic levels and shows how health professionals can effectively communicate and provide information to help women make unpressured but informed decisions Breastfeeding Contemporary Issues in Practice and Policy is essential reading for healthcare professionals policy movers and shapers and all those with an interest in breastfeeding who wish to influence the development of related policies practices and healthcare services An Ideological Analysis of Breastfeeding in Contemporary America Loreen N. Olson, Jenni M. Simon, 2019-12-19 An Ideological Analysis of Breastfeeding in Contemporary America Disciplining the Maternal Body analyzes the discourses involved in the pro breastfeeding breast is best paradigm highlighting how such politically charged rhetoric restrains women s ability to make the choices that are best for them and their families Loreen Olson and Jenni M Simon combat the idea that is so often espoused by medical professionals researchers and society at large to be a good parent one must provide breast milk to the infant in order for the baby to grow into a healthy productive citizen By exposing the biases present Olson and Simon advocate for the need to make discursive space for all parents and all feeding choices Scholars of communication rhetoric gender and women s studies and feminism will find this book particularly useful *Breastfeeding* Ruth A.
