C. Warneke,2013-02-01 Once upon a time There was a young man who was terribly handsome extraordinarily charming and suitably rich He enjoyed life and all that it had to offer even if he was growing weary of being alone One evening he saw a beautiful woman through a storefront window and he knew that his life would never be the same The Fates have other ideas Before he had the opportunity to meet her he was in a car accident and lost his vision with no knowledge of when or if it would return For several weeks the image of the gorgeous enchantress was the only light in his dark world he knew that he had to meet her So he contrived a reason to go into her store using his blindness to his advantage as he introduced himself to his dream girl Sparks flew and he fell madly passionately in love Blind Attraction Because in a world where image is everything sometimes it takes losing your sight to finally be able to see clearly **Blind Attraction** Myrna MacKenzie,Joan Elliott Pickart,2004 **Family Secrets Books 9-12** Myrna Mackenzie,Joan Elliott Pickart,Ingrid Weaver,Beverly Barton,2007-05-01 Five extraordinary siblings One dangerous past Unlimited potential Fans of Heroes and The X Files will be unable to resist the mysteries of Family Secrets This third and final collection contains books 9 12 Blind Attraction by Myrna Mackenzie The Parker Project by Joan Elliott Pickart The Insider by Ingrid Weaver and Check Mate by Beverly Barton **That pure desire, of whom Love is born, is the progenitor of affection** Helena Petrovna Blavatsky,2021-08-30 Kama Deva is the first conscious all embracing desire for universal good love and for all that lives and feels needs help and kindness the first feeling of infinite tender compassion and mercy that arose in the consciousness of the Creative Force that came into life and being by a single ray of Light and Truth That pure desire of whom Love is born is the progenitor of affection Pythagoras Primeval Monad which having flashed out like lightning from the Central Point and thrilled through the Germ retires into Darkness is the Rootless Root of all things The Pythagorean system is based entirely upon sacred numbers harmony and correspondences or affinities Space is filled with atoms actuated by ceaseless rotationary

motion Aggregated atoms through mutual collisions produce lateral movements of affinity Sounds and colours are spiritual numerals The cause of the splendour and variety of colours lies deep in the affinities of nature for there is a singular and mysterious alliance between colour and sound The Creative Force produces colours sounds and numbers in the shape of rates of vibration which compound and dissociate atoms and molecules There is mutual sympathy between terrestrial and celestial things Terrestrial natures receive the plenitude of the celestial and celestial of supercelestial essences while every order of things proceeds gradually in a majestic descent from the highest to the lowest True magic is firmly based on the mysterious affinities between organic and inorganic bodies the visible productions of the four kingdoms and the invisible powers of the universe That which science calls gravitation the ancients and the medi val Hermetists called magnetism attraction affinity Magnetism is attraction to the virtue of the substance rather than blind attraction between two masses Eastern Occultists bring down the properties of matter to attraction and repulsion modern Scientists to gravitation and phylogenetic relations Affection is one of the most powerful attractions between two loving spirits the embodied and the disembodied one further enhanced by the harmony between the two and the magnetic purity of those left on earth The attraction of the shells of the departed to places and persons is brought forth by the law of magneto vital affinities But the ascent of the higher Ego to the bliss of pure subjectivity will be impeded if its alter ego is weighted down with base feelings The reincarnating Ego is drawn by magnetic attraction to the atmosphere of the parent or parents whose vibrational frequency is most sympathetic to its own and with whom its karmic affinities are strongest The virtues of the Macrocosm are represented in the Microcosm or Man The magnetic power of Man can thus draw those celestial virtues which correspond to his own It is the science of Astrology that determines the nature of effects by a knowledge of the law of magnetic affinities and attractions of the planetary bodies But it is the Karma of the individual himself which places him in that particular magnetic relation The Occultist follows the ethnological affinities and their divergences in various nationalities races and sub races by observing the auric shades and gradations of colour of the inner man He can thus unerringly pronounce to which of several distinct human families and to what particular group or sub group that man belongs The secret of healing lies in the knowledge of the affinities between kindred atoms Find that metal wood stone or plant that has the most correspondential affinity with the body of the sufferer and that particular agent will lead invariably to his cure Strong will creates and sympathy attracts even adepts In Europe more than anywhere else there is a Universal Brotherhood an alliance of affinities of strong magnetic yet dissimilar forces and polarities centred around one dominant idea The cause of spiritual failure lies in the egotism of the age whether conscious or unconscious And even western philanthropy so often pervaded by selfish motives and worldly affinities is unable to warm humanity with its beneficent rays Blessed are the pure hearted who have only intuition for intuition is better than intellect
