Blood Cut:

The Blood Covenant Henry Clay Trumbull, 1885 **The Twilight of Cutting** Saida Hodic, 2016-11-22 The last three decades have witnessed a proliferation of NGOs engaging in new campaigns to end the practice of female genital cutting across Africa. These campaigns have in turn spurred new institutions, discourses and political projects bringing about unexpected social transformations both intended and unintended. Consequently cutting is waning across the continent. At the same time these endings are being disavowed by cross continental discourses that argue that cutting has become an object of a neocolonial racist gaze and Western interventionist zeal. What does it mean to say that while cutting is ending the Western discourse surrounding it is on the rise? And what kind of a feminist anthropology is needed in such a moment? *The Twilight of Cutting* examines these and other questions from the vantage point of Ghanaian feminist and reproductive health NGOs that have organized campaigns against cutting for over thirty years. The book looks at these NGOs not as solutions but as sites of problematization. The purpose of understanding Ghanaian campaigns, their transnational and regional encounters and the forms of governmentality they produce is not to charge them with providing answers to the question how do we end cutting. Instead it is to account for their work, their historicity, the life worlds and subjectivities they engender and the modes of reflection, imminent critique and opposition they set in motion. Self-Injury Judy Dodge Cummings, 2015-07-02 Life as a teenager can be tough. Pressures from school, expectations from parents, fitting in with peers and facing self doubt are just a few things that can weigh heavily on a teen's shoulders. While some young adults seem to thrive on adversity, others wilt under the strain and opt for less productive means of coping. Millions of American teenagers and college students deliberately injure themselves as a way of handling stress. They cut, burn, break and poison their bodies seeking physical pain as a means to avoid emotional pain. In *Self Injury: The Ultimate Teen Guide* Judy Dodge Cummings tackles this serious subject offering hope for young adults everywhere. In this book Cummings defines self injury as it is understood by the medical community and examines the causes of self harm. The author shares the stories of several young women and men to help explain what types of people are most affected by this disorder. Topics covered in this book include: Who is most prone to self injury? Internal and external triggers to self harm. The impact of social media and the Internet on this issue. Obvious and subtle signs of self harm. Coping mechanisms. Resources for individuals. Aimed at teens who need to find healthier ways to handle the pressures of everyday life, this book will also assist friends and families who want to help their loved ones. Weaved throughout the chapters are first person accounts of teens who intentionally hurt themselves and their stories will help others understand they are not alone. Providing paths to recovery. *Self Injury: The Ultimate Teen Guide* is a valuable resource for anyone who wants to break free from self destructive behavior.
