The Blue-Star Millennium David Gaughan, When Zakeera is asked to take over the body of a senator running for president in an attempt to save our environment he s faced with the challenge of giving up is current identity as a star ship Commander of the Astar Galactic Command With the full strength of the negative Darket forces pitted against him Zakeera s mission is to try to convince terrestrials to vote him into power in time to make the necessary changes to save our world from environmental backlash Captivating and thought provoking this book is another masterpiece of the author The way the author tells the story made me feel like I was watching a blockbuster movie The message of the book is indeed very relevant to what s happening to our world right now A must read for those who seek answers to existential questions and those who simply want to read an enjoyable and out of this world adventure reviewed by Liz2020 Merging the realms between fiction and fact past and future into a thought provoking tale of two worlds and one future the central theme of this book is the conservation crises facing planet Earth and this forms the backdrop as we follow the adventures of the Blue Star Zakeera of the Astar Galactic Command Prequel to the Aaden Blue Star series it is written from the viewpoint of an extra terrestrial civilization a union of star groups concerned about humankind s misuse of planet Earth Will Zakeera succeed in his mission of convincing terrestrials to vote for him in time to make the necessary changes to save our world Will the negative Darket forces achieve their aim of convincing enough people to turn against him Whoever wins this battle will determine the future of our world as we know it Get your copy of The Blue Star Millennium and start reading this prequel to the Aaden Blue Star series today

Aaden Blue-Star Awakening David Gaughan,2024-06-28 A normal teen discovers he s an ET time traveler When his superhuman powers awaken after a freak accident he also discovers his extraterrestrial heritage Able to sense danger and read peoples auras and thoughts his life couldn t get any more strange until he discovers his connection with two inter dimensional champions who are here on a time travel mission to help save our world from environmental disaster With a backdrop of climate change and environmental issues Aaden struggles to balance his life as he knows it with increasingly vivid recollections of another life With his sister Tiffany and his best friend Fleur who are the only two he can confide in he discovers his heritage and the special connection with two inter dimensional champions and their mentor Varoon His grip on reality is challenged even further when he realizes that one of these inter dimensional champions and his father are interconnected They have all been brought back together at a time when the Earth is threatened not only by the darker forces working against them but also by ecological disaster brought about by humanity Their journey emphasizes the Power of Attraction where the combined concentrated positive thought energy of the masses can bring about miraculous changes in our world Their nemesis the dark Lord Belial is just as determined to influence human development and dominate the world Throughout their trials it is Varoon s wisdom and influence that helps them rise to the challenge The ensuing battle with the darker forces results in a climax that challenges the reader to determine the truth in Varoon s words Life is a dream and you are the dreamer In comparison with other books in this genre one reviewer described this one as an imaginative extremely creative story while another reviewer said the plot was unique I ve never read a book about a boy who got powers from a lightning strike and it was a really cool concept also interesting is that it revolves around today s environmental issues and shows some ways that might help fix them Readers who enjoyed the Harry Potter series would find this an easy and absorbing read although the wizard in this story is an ET and the action is more of a blend of Star Wars and Indiana Jones in a modern day climate crisis setting
