The American Negro Theatre and the Long Civil Rights Era Jonathan Shandell, 2018-08-10 Jonathan Shandell provides the first in depth study of the historic American Negro Theatre ANT and its lasting influence on American popular culture Founded in 1940 in Harlem the ANT successfully balanced expressions of African American consciousness with efforts to gain white support for the burgeoning civil rights movement The theatre company featured innovative productions with emerging artists Sidney Poitier Harry Belafonte Ruby Dee and many others who would become giants of stage film and television In 1944 the ANT made theatrical history by creating the smash hit *Anna Lucasta* the most popular play with an African American cast ever to perform on Broadway Starting from a shoestring

budget the ANT grew into one of the most important companies in the history of African American theatre Though the group folded in 1949 it continued to shape American popular culture through the creative work of its many talented artists Examining oral histories playbills scripts production stills and journalistic accounts Shandell gives us the most complete picture to date of the theatre company by analyzing well known productions alongside groundbreaking and now forgotten efforts Shedding light on this often overlooked chapter of African American history which fell between the New Negro Renaissance and the Black Arts Movement Shandell reveals how the ANT became a valued community institution for Harlem an important platform for African American artists to speak to racial issues and a trailblazer in promoting integration and interracial artistic collaboration in the U S In doing so Shandell also demonstrates how a small amateur ensemble of the 1940s succeeded in challenging expanding and transforming how African Americans were portrayed in the ensuing decades The result is a fascinating and entertaining examination that will be of interest to scholars and students of African American and American studies and theatre history as well as popular culture enthusiasts Stages of Struggle and Celebration

Sandra M. Mayo, Elvin Holt, 2016-01-15 From plantation performances to minstrel shows of the late nineteenth century the roots of black theatre in Texas reflect the history of a state where black Texans have continually created powerful cultural emblems that defy the clichés of horses cattle and bravado Drawing on troves of archival materials from numerous statewide sources Stages of Struggle and Celebration captures the important legacies of the dramatic arts in a historical field that has paid most of its attention to black musicians Setting the stage the authors retrace the path of the cakewalk and African inspired dance as forerunners to formalized productions at theaters in the major metropolitan areas From Houston's Ensemble and Encore Theaters to the Jubilee in Fort Worth gospel stage plays of the Black Academy of Arts and Letters in Dallas as well as San Antonio's Hornsby Entertainment Theater Company and Renaissance Guild concluding with ProArts Collective in Austin Stages of Struggle and Celebration features founding narratives descriptions of key players and memorable productions and enlightening discussions of community reception and the business challenges faced by each theatre The role of drama departments in historically black colleges in training the companies founding members is also explored as is the role the support of national figures such as Tyler Perry plays in ensuring viability A canon of Texas playwrights completes the tour The result is a diverse tribute to the artistic legacies that continue to inspire new generations of producers and audiences **The African American Theatrical Body**

Soyica Diggs Colbert, 2011-10-06 Presenting an innovative approach to performance studies and literary history Soyica Colbert argues for the centrality of black performance traditions to African American literature including preaching dancing blues and gospel and theatre itself showing how these performance traditions create the performative ground of African American literary texts Across a century of literary production using the physical space of the theatre and the discursive space of the page W E B Du Bois Zora Neale Hurston James Baldwin August Wilson and others deploy performances to re-situate black people in time and space The study

examines African American plays past and present including *A Raisin in the Sun* *Blues for Mister Charlie* and *Joe Turner's Come and Gone* demonstrating how African American dramatists stage black performances in their plays as acts of recuperation and restoration creating sites that have the potential to repair the damage caused by slavery and its aftermath
