African Inheritance:

The African Inheritance Ieuan Ll. Griffiths, 2005-09-30 Africa is a continent gripped by civil wars and widespread famine. The causes of many of the continent's problems are deep rooted and can be traced to Africa's colonial past when European powers divided the spoils of the continent into separate sovereign states. The African Inheritance examines the effect this balkanization of Africa has had and is having on the political and economic well being of the continent. From a brief history of pre colonial Africa and its subsequent European partition and inevitable decolonization, the book discusses the consequences of such an inheritance: small and weak states, destructive secessionist movements, irredentism and African imperialism. Attempts to tackle these problems and assert independent development are inhibited by the colonial inheritance. The Doctrine of God in African Christian Thought James Henry Owino Kombo, 2007-05-30 The Christian faith knows and worships one God who is revealed in the Son and in the Holy Spirit. This is the meaning of the doctrine of the Trinity in Christian thought. Although Christian orthodoxy defines the doctrine of the Trinity, the intellectual tools used to capture it significantly vary. At different times and in different places, Western Christianity has for instance used neo Platonism, German Idealism and the conceptual tools of the second century Greeks. Taking elements from the known African intellectual framework, this book argues that for African Christians, the respective pre-Christian African understanding of God and the Ntu metaphysics in particular function as conceptual gates for an attempt towards articulating the Trinity for African Christian audiences.

The Human Cost of African Migrations, **The Human Cost of African Migrations** Toyin Falola, Niyi Afolabi, 2007-11-13 In an era of globalization, population growth and displacements, migration is now a fact of life in a constantly shifting economic and political world order. This book contributes to the discourse on the beneficiaries, benefactors and the casualties of African displacement. While the few existing studies have emphasized economic motivation as the primary factor triggering African migration, this volume treats a range of issues: economic, socio-political, pedagogical, developmental and cultural. Organized with a multidisciplinary thrust in mind, this book argues that any discussion of African migration, whether internal or external, must be conceived as only one aspect of a more complex organic and global patterning of flux and reflux necessitated by constantly shifting dynamics of world socio-economic, cultural and political order.

African Customary Law Casper Njuguna, 2019-12-02 Africa is the emerging continent of the twenty-first century and will continue to play a major role in the world politics and trade. At the center of the African experience is customary law, which remains one of the most important and quintessential forms of legal, political and social organization and regulation in the sub-Saharan landscape. Using qualitative and quantitative data, Casper Njuguna sets a framework for understanding the hybrid nature of this law and creates an appropriate new moniker for it: Neo-Indigenous Sub-Saharan Law (NAS law). This systematic and empirical analysis addresses philosophical issues like human rights, property rights, women's rights, individual rights and freedoms, family relations, social structures and political loyalties which span beyond Africa and African scholars.

The Protocol to the African Charter on Human and Peoples' Rights on the Rights of Women in Africa: a commentary Celestine Nyamu Musembi, Trésor Muhindo Makunya, 2023-08-28 The first in a series of PULP commentaries on African human rights law under the series title PULP Commentaries on African human rights law Since its adoption on 11 July 2003 the Protocol to the African Charter on Human and Peoples Rights on the Rights of Women in Africa the Maputo Protocol has become a landmark on the African human rights landscape It has steadily gained prominence as a trail blazing instrument responsive to the diverse realities of women on the African continent This comprehensive Commentary on the Maputo Protocol the first of its kind provides systematic analysis of each article of the Protocol delving into the drafting history and elaborating on relevant key concepts and normative standards This Commentary aims to be a one stop shop for anyone interested in the Maputo Protocol such as researchers teachers students practitioners policymakers and activists **The African Inheritance** Ieuan Ll. Griffiths, 2005-09-30 Examines the effect of Africa's colonial past on the present political and economic well being of the continent The consequences of such an inheritance are discussed small and weak states destructive movements and African imperialism *An Introduction to the Study of African Culture* Eric O. Ayisi, 1992

Tradition, Culture and Development in Africa Ambe J Njoh, 2016-12-05 The fact that Africa continues to lag behind all regions of the world on every indicator of development is hardly contentious However there is fierce debate on why this should be the case despite national and international efforts to reverse this situation While this book does not attempt to answer this question per se it addresses a largely ignored but important issue which might provide some insights into the matter This issue is the link between culture tradition and socio economic development in Africa By weaving a common thread through these concepts this book breaks new ground in the discourse on development It highlights the differences between Euro centric culture which is rooted in capitalist ideology and Protestant ethic and traditional African culture where concepts such as capital accumulation entrepreneurial attitudes and material wealth are not of top priority In doing so it dispels popular myths stereotypes and distortions as well as discounting misleading accounts about major aspects of African culture and traditional practices **The Hidden Cost of Being African American** Thomas M. Shapiro, 2004 Over the past three decades racial prejudice in America has declined significantly and many African American families have seen a steady rise in employment and annual income But alongside these encouraging signs Thomas Shapiro argues in *The Hidden Cost of Being African American* fundamental levels of racial inequality persist particularly in the area of asset accumulation inheritance savings accounts stocks bonds home equity and other investments Shapiro reveals how the lack of these family assets along with continuing racial discrimination in crucial areas like homeownership dramatically impact the everyday lives of many black families reversing gains earned in schools and on jobs and perpetuating the cycle of poverty in which far too many find themselves trapped Shapiro uses a combination of in depth interviews with almost 200 families from Los Angeles Boston and St Louis and national survey data with 10 000 families to show how racial inequality is transmitted across

generations We see how those families with private wealth are able to move up from generation to generation relocating to safer communities with better schools and passing along the accompanying advantages to their children At the same time those without significant wealth remain trapped in communities that don't allow them to move up no matter how hard they work Shapiro challenges white middle class families to consider how the privileges that wealth brings not only improve their own chances but also hold back people who don't have them This wealthfare is a legacy of inequality that if unchanged will project social injustice far into the future Showing that over half of black families fall below the asset poverty line at the beginning of the new century The Hidden Cost of Being African American will challenge all Americans to reconsider what must be done to end racial inequality
