African Americans in Urban America Wendy A. Kellogg, 1996-01-01 The African American Urban Experience J. Trotter, E. Lewis, T. Hunter, 2004-03-17 From the early years of the African slave trade to America blacks have lived and laboured in urban environments Yet the transformation of rural blacks into a predominantly urban people is a relatively recent phenomenon only during World War One did African Americans move into cities in large numbers and only during World War Two did more blacks reside in cities than in the countryside By the early 1970s blacks had not only made the transition from rural to urban settings but were almost evenly distributed between the cities of the North and the West on the one hand and the South on the other In their quest for full citizenship rights economic democracy and release from an oppressive rural past black southerners turned to urban migration and employment in the nation s industrial sector as a new Promised Land or Flight from Egypt In order to illuminate these transformations in African American urban life this book brings together urban history contemporary social cultural and policy research and comparative perspectives on race ethnicity and nationality within and across national boundaries *The African American Experience* Arvarh E. Strickland, Robert E. Weems Jr., 2000-11-30 Compared to the early decades of the 20th century when scholarly writing on African Americans was limited to a few titles on slavery Reconstruction and African American migration the last thirty years have witnessed an explosion of works on the African American experience With the Civil Rights and Black Power movements of the 1960s came an increasing demand for the study and teaching of African American history followed by the publication of increasing numbers of titles on African American life and history This volume provides a comprehensive bibliographical and analytical guide to this growing body of literature as well as an analysis of how the study of African Americans has changed African American Psychology Faye Z Belgrave, Kevin W Allison, 2009-07-15 This core textbook provides students with comprehensive coverage of African American psychology as a field Each chapter integrates African and American influences on the psychology of African Americans thereby illustrating how contemporary values beliefs and behaviors are derived from African culture translated by the cultural socialization experiences of African Americans in this country The literature and research are referenced and discussed from the perspective of African culture mostly West African during the period of enslavement at other critical periods in this country e g early 20th century civil rights era and through the present Chapters provide a review of the research literature with a focus on applications for contemporary living **Documenting the Black Experience** Novotny Lawrence, 2014-11-07 History taught at the elementary middle high school and even college levels often excludes significant events from African American history such as the murder of Emmett Till or the murder of four black girls by the Ku Klux Klan in the Sixteenth Street Baptist Church bombing in Birmingham Such events are integral parts of history that continue to inform America s racial politics Their exclusion is a problem that this work addresses by bringing more visibility to documentary films focusing on the events Books treating the history of documentary films follow a
