from possession by them and points out that the animus loves to create an atmosphere of mist in which nobody can find orientation. These are supra personal elements of psychic life capable of breaking beyond the tendency of consciousness to become one-sided. This second section of Volume 8 provides an insightful explanation of a woman's encounter with her animus and a man's encounter with his anima. *Valentine and Orson* Arthur Dickson, 1929. Traces the story of Valentine and Orson in its earliest form to learn all that it has to teach us about the materials and methods of writers of medieval romance.
