After Development:

After Development Söng-dŭk Ham, L. Christopher Plein, 1997 This book explores the dynamic changes now taking place in the South Korean government as a result of recent social and economic liberalization Sung Deuk Hahm and L Christopher Plein trace the emergence in Korea of a post developmental state in which both increasingly autonomous capital interests and growing public expectations of a higher quality of life challenge existing authoritarian institutions Separating out the constituent parts of the Korean state they then explore the evolving roles of the Korean presidency and bureaucracy in setting national policy The authors analyze the importance of social and cultural factors as well as the motives of individual political actors in shaping institutional change in Korea They show how shifting socioeconomic conditions have altered the way political decisions are made Hahm and Plein illustrate these transitions with concrete examples of policy making in the area of technology development and transfer an area of critical importance to Korea's rapid modernization

After-Development Dynamics Anthony P. D'Costa, 2015-07-30 The South Korean economic development trajectory has been widely studied and is well understood From an impoverished war torn nation the country has progressed on all fronts including a ten fold increase in per capita income over a 40 year period It stands out internationally when it comes to education and politically it has moved away from authoritarianism to a more spirited democratic system In short it seems to have achieved it all The question then is what does a country do after it has attained development This volume examines Korea's strategic engagement with Asia as a response to the limits of the home market Access to new markets and resources in Asia through exports and foreign investment are critical Additionally with Korea's ongoing demographic crisis its engagement with foreign workers is also inevitable After Development Dynamics explores how Korea is responding through regional integration strategic industrial upgrading of exports foreign markets and resources and coping with migrants including unskilled workers students and professionals The transfer of Korean business and employment practices through investment to other countries and accommodating foreigners is not trouble free Further prosperity imposes demands for increased social welfare while the workings of contemporary global capitalism introduce new sources of inequality Sharing that prosperity with small firms irregular workers and women becomes critical This volume presents the key internal challenges facing Korean society and suggests multiple ways to address them as a related response to Korea's after development prosperity

L3 Development After the Initial State Megan M. Brown-Bousfield, Suzanne Flynn, Éva Fernández-Berkes, 2023-10-15 To date the field of L3 acquisition research has had a heavy focus on the initial state of the L3 grammar While this initial state research is critical to understanding L3 acquisition as a whole in order for an explanatory understanding of language acquisition in the multilingual mind the field needs to expand its scope beyond this area of focus This volume brings together L3 acquisition and multilingualism researchers in order to discuss the state of the field and introduce new ideas related to the development of post initial L3 knowledge and the relationship among languages in the

multilingual mind It includes contributions related to syntactic phonological and lexical development beyond the L3 initial state The purpose of this volume is to expand the current academic discussions within this field by emphasizing the role of the developmental process in an L3 context with the hope of inspiring further research in this domain
