After The Heavenly Tune English Poetry The Aspiration To Song

James V. Mirollo, Peter C. Herman

After The Heavenly Tune English Poetry The Aspiration To Song:

After the Heavenly Tune Marc Berley, 2000 After the Heavenly Tune offers an expansive answer to the basic question central to the history of poetry and poetics what do poets mean when they write I sing Berley's chapters on Shakespeare and Milton unfold the remarkable development of these two speculative musical poetics who are central to the history of English poetry And in his last two chapters on romanticism and modernism he draws an intriguing line from Wordsworth to Stevens in which the aspiration to song becomes a dazzling means of exploring scrutinizing and redefining the burdens and achievements poetic philosophical social and personal for individual poets in their times After the Heavenly Tune offers not only groundbreaking studies of The Merchant of Venice and Milton's theory of prophecy but also compelling new readings of classical and medieval literary theory the burdens of romanticism and the resolutions of modernism This work will appeal to a broad audience Renaissance classical and romantic literary scholars philosophers musicologists theologians and general readers interested in English poetry and Literary Studies

The Figure of the Singer Daniel Karlin, 2013-07-04 Why did poets continue to call themselves singers long after the formal link between poetry and music had been severed Daniel Karlin explores the origin and meaning of the figure of the singer offering a profound and stimulating analysis of the idea of poetry as song

Reverberating Song in Shakespeare and Milton Erin Minear, 2016-04-08 In this study Erin Minear explores the fascination of Shakespeare and Milton with the ability of music heard imagined or remembered to infiltrate language Such infected language reproduces not so much the formal or sonic properties of music as its effects Shakespeare's and Milton's understanding of these effects was determined she argues by history and culture as well as individual sensibility They portray music as uncanny and divine expressive and opaque promoting associative rather than logical thought processes and unearthing unexpected memories The title reflects the multiple and overlapping meanings of reverberation in the study the lingering and infectious nature of musical sound the questionable status of audible earthly music as an echo of celestial harmonies and one writer's allusions to another Minear argues that many of the qualities that seem to us characteristically Shakespearean stem from Shakespeare's engagement with how music works and that Milton was deeply influenced by this aspect of Shakespearean poetics Analyzing Milton's account of Shakespeare's warbled notes she demonstrates that he saw Shakespeare as a peculiarly musical poet deeply and obscurely moving his audience with language that has ceased to mean but nonetheless lingers hauntingly in the mind Obsessed with the relationship between words and music for reasons of his own including his father's profession as a composer Milton would adopt adapt and finally reject Shakespeare's form of musical poetics in his own quest to join the angel choir Offering a new way of looking at the work of two major authors this study engages and challenges scholars of Shakespeare Milton and early modern culture

The Great American Songbooks T. Austin Graham, 2013-01-31 In the late nineteenth and early twentieth centuries American authors pioneered a mode of musical writing that quite literally resounded beyond the printed page Novels gained soundtracks poetry compelled

its audiences to sing and the ostensibly silent act of reading became anything but The Great American Songbooks is the story of this literature at once an overview of musical and authorial practice at the century's turn an investigation into the sensory dimensions of reading and a meditation on the effects that the popular arts have had on literary modernism The writings of John Dos Passos Theodore Dreiser T S Eliot F Scott Fitzgerald Langston Hughes Jean Toomer and Walt Whitman are heard in a new key the performers and tunesmiths who inspired them have their stories told and the music of the past long out of print and fashion is recapitulated and made available in digital form A work of criticism situated at the crossroads of literary analysis musicology and cultural history The Great American Songbooks demonstrates the importance of studying fiction and poetry from interdisciplinary perspectives and it suggests new avenues for research in the dawning age of the digital humanities

Broken Harmony Joseph M. Ortiz, 2011-02-14 Music was a subject of considerable debate during the Renaissance The notion that music could be interpreted in a meaningful way clashed regularly with evidence that music was in fact profoundly promiscuous in its application and effects Subsequently much writing in the period reflects a desire to ward off music's illegibility rather than come to terms with its actual effects In *Broken Harmony* Joseph M Ortiz revises our understanding of music's relationship to language in Renaissance England In the process he shows the degree to which discussions of music were ideologically and politically charged Offering a historically nuanced account of the early modern debate over music along with close readings of several of Shakespeare's plays including *Titus Andronicus* *The Merchant of Venice* *The Tempest* and *The Winter's Tale* and Milton's *A Maske* Ortiz challenges the consensus that music's affinity with poetry was widely accepted or even desired by Renaissance poets Shakespeare more than any other early modern poet exposed the fault lines in the debate about music's function in art repeatedly staging disruptive scenes of music that expose an underlying struggle between textual and sensuous authorities Such musical interventions in textual experiences highlight the significance of sound as an aesthetic and sensory experience independent of any narrative function

Unwritten

Poetry Scott A. Trudell, 2019-03-07 Vocal music was at the heart of English Renaissance poetry and drama Virtuoso actor singers redefined the theatrical culture of William Shakespeare and his peers Composers including William Byrd and Henry Lawes shaped the transmission of Renaissance lyric verse Poets from Philip Sidney to John Milton were fascinated by the disorienting influx of musical performance into their works Musical performance was a driving force behind the period's theatrical and poetic movements yet its importance to literary history has long been ignored or effaced This book reveals the impact of vocalists and composers upon the poetic culture of early modern England by studying the media through which and by whom its songs were made In a literary field that was never confined to writing media were not limited to material texts Scott Trudell argues that the media of Renaissance poetry can be conceived as any node of transmission from singer's larynx to actor's body Through his study of song Trudell outlines a new approach to Renaissance poetry and drama that is grounded not simply in performance history or book history but in a more synthetic media history

Poetry and Its Others Jahan

Ramazani,2022-12-22 What is poetry Often it is understood as a largely self enclosed verbal system suspended from any mutual interaction with alien discourse in the words of Mikhail Bakhtin But in Poetry and Its Others Jahan Ramazani reveals modern and contemporary poetry s animated dialogue with other genres and discourses Poetry generates rich new possibilities he argues by absorbing and contending with its near verbal relatives Exploring poetry s vibrant exchanges with other forms of writing Ramazani shows how poetry assimilates features of prose fiction but differentiates itself from novelistic realism metabolizes aspects of theory and philosophy but refuses their abstract procedures and recognizes itself in the verbal precision of the law even as it separates itself from the law s rationalism But poetry s most frequent interlocutors he demonstrates are news prayer and song Poets such as William Carlos Williams and W H Auden refashioned poetry to absorb the news while expanding its contexts T S Eliot and Charles Wright drew on the intimacy of prayer though resisting its limits and Paul Muldoon Rae Armantrout and Patience Agbabi have played with and against song lyrics and techniques Encompassing a cultural and stylistic range of writing unsurpassed by other studies of poetry Poetry and Its Others shows that we understand what poetry is by examining its interplay with what it is not **The Gaze of the Listener** Regula Hohl Trillini,2008-01-01 This study analyzes representations of music in fiction drama and poetry as well as normative texts in order to contribute to a gendered cultural history of domestic performance From the Tudors to the First World War playing the harpsichord or piano was an indispensable asset of any potential bride and education manuals as well as courtship plots and love poems pay homage to this social function of music The Gaze of the Listener charts the fundamental tension which determines all these texts while music is warmly recommended in conduct books and provides standard metaphors like concord and harmony for virtuous love a profound anxiety about its sensuous inarticulateness and implicit femininity unsettles all descriptions of actual music making Along with repressive plot lines the privileging of visual perception over musical appreciation is the most telling indicator of this problem The Gaze of the Listener is the first coherent account of this discourse and its historical continuity from the Elizabethan to the Edwardian period and provides a significant background for more narrowly focused research Its uniquely wide database contextualizes numerous minor works with classics without limiting itself to the fringe phenomenon of musician novels Including a fresh account of the novels of Jane Austen in their contemporary rather than Victorian context the book is of interest to scholars and students in gender studies English literature cultural studies and musicology **The Renaissance Epic and the Oral Past** Anthony Welch,2012-11-27 This book explores why Renaissance epic poetry clung to fictions of song and oral performance in an age of growing literacy Sixteenth and seventeenth century poets Anthony Welch argues came to view their written art as newly distinct from the oral cultures of their ancestors Welch shows how the period s writers imagined lost civilizations built on speech and song from Homeric Greece and Celtic Britain to the Americas and struggled to reconcile this oral inheritance with an early modern culture of the book Welch s wide ranging study offers a new perspective on Renaissance Europe s epic literature and its

troubled relationship with antiquity Opening the Borders James V. Mirollo, Peter C. Herman, 1999 Early modern studies is increasingly devoted to opening the borders between supposedly discrete areas of study including supposedly antithetical theoretical approaches BOOK JACKET

Adopting the Melody of Phrase: An Psychological Symphony within **After The Heavenly Tune English Poetry The Aspiration To Song**

In some sort of taken by screens and the ceaseless chatter of instant communication, the melodic beauty and mental symphony developed by the written term often diminish into the back ground, eclipsed by the persistent sound and interruptions that permeate our lives. But, set within the pages of **After The Heavenly Tune English Poetry The Aspiration To Song** a wonderful fictional value full of fresh emotions, lies an immersive symphony waiting to be embraced. Crafted by a wonderful composer of language, this fascinating masterpiece conducts readers on an emotional trip, skillfully unraveling the hidden melodies and profound influence resonating within each cautiously constructed phrase. Within the depths with this moving analysis, we will examine the book is central harmonies, analyze their enthralling publishing fashion, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
