Age And Dignity Working With Older People:

Social Work with Older People Ann McDonald, 2010-03-08 Social Work with Older People provides an authoritative and practical guide to working with older people in a range of settings. It addresses the complexities of individual work with older people as well as work with families, groups and the wider community and is not afraid to tackle the challenges as well as opportunities of practice in this area. The book begins by explaining the demographic changes that have led to a greying of the general population. It goes on to discuss the diversity in experiences of ageing across society and the range of issues which confront older people and those who wish to work proactively with them. Clear attention is paid to the processes of assessment, care planning and review with readers encouraged to reflect on developing good practice through case studies and exercises. Although it has a strong practical emphasis, the book also stresses the value of theoretical perspectives with insights from fields such as sociology and psychology woven throughout the book. Clear links are also made to policy, guidelines and organizational standards without losing sight of the deeper, often more complex issues that arise when working with older people. Social Work with Older People will be essential reading for social work students and practitioners but also for others who are interested in the development of practice with older people as citizens and service users. **Age**

and Dignity Neil Thompson, 1995 *Developing Services for Older People and Their Families* Rosemary Bland, 1996 Exploring new theory and practice in the provision of services for older people living at home, this book contains three parts. Part I examines the social context of old age, looking at structural barriers such as ageism, racism and sexism, the poverty of older people relative to the rest of the population, the received wisdom that the increase in the number of older people in the population is problematic. The second part of the book focuses on practice. The authors examine the extent to which service providers work from a user-led perspective, looking at issues such as day services for people with dementia, housing and support services, GP social services collaboration, short-term breaks. Part III examines specific issues such as development of professional skills, the use of specialist teams, empowerment. This book is an excellent source of information for social workers, those working with older people and lecturers of social work and gerontology. **Practical Management of Dementia**

Stephen Curran, John Wattis, 2018-05-08 Practical Management of Dementia, Second Edition, remains a comprehensive guide to identifying the challenges faced in caring for patients with dementia. Integrating new research into the diagnosis, detection and management of dementia, this book brings together a wealth of extensive practical experience and knowledge. It answers questions on medical, psychological and social management in an informative, evidence-based manner. Emphasising the need for a variety of pharmacological, psychological and social approaches that can be adapted for individual patients, it also encourages an understanding of the patient's spiritual needs. Reviews of the First Edition: This is a highly readable and useful resource. NURSING STANDARD: Comprehensive and valuable. Of merit to all healthcare team members from all care setting perspectives. GERIATRICS TODAY: Consistent and clear, well written and edited. THE JOURNAL OF DEMENTIA CARE

Older Persons and the Law John Williams, 2025-05-15 This book explores the law and legal system's impact on older persons As well as describing the current law primarily in England and in Wales it highlights the pivotal role that elder law lawyers play in using law to challenge and combat ageism Important questions are raised about whether the law perpetuates ageism and whether the current working of the law effectively challenges discrimination abuse and social exclusion faced by older persons Elder law lawyers have an essential role in advocating for the rights of older persons The book focuses on the need to uphold and respect the human rights of older persons emphasising their dignity autonomy and right to inclusion It examines key topics such as human rights in the context of ageing the provision of social care discrimination decision making capacities mental health and abuse and neglect It also offers insights into the notion of personal liberty concerning older persons and whether existing safeguards are sufficient The international dimensions of elder law are discussed highlighting the range of initiatives led by the United Nations and efforts by non governmental organisations and regional bodies These initiatives aim to confront and diminish ageism on both international and domestic fronts emphasising the need for a concerted effort to enforce the rights of older persons across different cultures and legal systems This book will interest researchers students and practitioners specialising in family and social welfare law elder law human rights law and discrimination law

Social Work With Older People: Approaches To Person-Centred Practice Hall, Barbara, Scragg, Terry, 2012-03-01 This text fills a gap for an accessible textbook which takes a person centred approach to working with older people by providing readers with a basic knowledge of policy legislation theory and research

Essays on Mediation Ian Macduff, 2016-09-16 Across a range of jurisdictions in differing legal systems mediation is achieving evergreater institutional and statutory force and what not long ago was a marginal technique for dispute resolution is becoming mainstream and orthodox But how firm a sense do we have about the social formation we call mediation Through reflections and case histories this distinctive collection of essays by experienced mediators from across the globe provides a clearer understanding than we have had heretofore of what mediation is and what it can offer as a practical accessible and positive alternative in civil justice systems The authors each address ways mediation has been or

can be applied to dispute resolution in such pressing contexts as the following enduring and intense conflicts planning and environmental issues conflicts arising between refugee and host communities elder care intercultural settings online communication science based disputes and public policy disputes The questions raised as to access to justice identifying unmet needs improving the provision of services and fostering an ongoing conversation on mediation go well beyond the confines of commercial dispute resolution and the walls of courtrooms Through the practical experiences described useful and insightful perspectives emerge on the practice principles and legitimacy of mediation These invaluable reports and reflections on the powerful resources that mediation and mediators can bring to the table will be welcomed by a diversity of legal practitioners and jurists as well as academics
