After The Soviet Union From Empire To Nations:

After the Soviet Union Timothy J. Colton, Robert Legvold, 1992 An collection of essays assessing the far reaching effects of the collapse of the Soviet Union presents the thinking of some of the nation s leading experts including Richard Ericson and Seweryn Bialer on the region

After Empire Karen Barkey, Mark Von Hagen, 2018-05-15 This volume brings together a group of some of the most outstanding scholars in political science history and historical sociology to examine the causes of imperial decline and collapse of the Russian Ottoman and Habsburg empires

Empire to Nation Joseph W. Esherick, Eric Van Young, Hasan Kayali, 2006-05-04 The fall of empires and the rise of nation states was a defining political transition in the making of the modern world As United States imperialism becomes a popular focus of debate we must understand how empire the nineteenth century s dominant form of large scale political organization had disappeared by the end of the twentieth century Here ten prominent specialists discuss the empire to nation transition in comparative perspective Chapters on Latin America the Middle East Eastern Europe Russia and China illustrate both the common features and the diversity of the transition Questioning the sharpness of the break implied by the empire nation binary the contributors explore the many ways in which empires were often nation like and nations behaved imperially While previous studies have focused on the rise and fall of empires or on nationalism and the process of nation building this intriguing volume concentrates on the empire to nation transition itself Understanding this transition allows us to better interpret the contemporary political order and new forms of global hegemony

Empire of Nations Francine Hirsch, 2014-11-15 When the Bolsheviks seized power in 1917 they set themselves the task of building socialism in the vast landscape of the former Russian Empire a territory populated by hundreds of different peoples belonging to a multitude of linguistic religious and ethnic groups Before 1917 the Bolsheviks had called for the national self determination of all peoples and had condemned all forms of colonization as exploitative After attaining power however they began to express concern that it would not be possible for Soviet Russia to survive without the cotton of Turkestan and the oil of the Caucasus In an effort to reconcile their anti imperialist position with their desire to hold on to as much territory as possible the Bolsheviks integrated the national idea into the administrative territorial structure of the new Soviet state In Empire of Nations Francine Hirsch examines the ways in which former imperial ethnographers and local elites provided the Bolsheviks with ethnographic knowledge that shaped the very formation of the new Soviet Union The ethnographers who drew inspiration from the Western European colonial context produced all union censuses assisted government commissions charged with delimiting the USSR s internal borders led expeditions to study the human being as a productive force and created ethnographic exhibits about the Peoples of the USSR In the 1930s they would lead the Soviet campaign against Nazi race theories Hirsch illuminates the pervasive tension between the colonial economic and ethnographic definitions of Soviet territory this tension informed Soviet social economic and administrative structures A major contribution to the history of Russia and the Soviet Union Empire of Nations also offers new insights into the

connection between ethnography and empire Ethnicity, Nationalism and Conflict in and after the Soviet Union Valery Tishkov, 1996-11-28 Valery Tishkov is a well known Russian historian and anthropologist and former Minister of Nationalities in Yeltsin's government This book draws on his inside knowledge of major events and extensive primary research Tishkov argues that ethnicity has a multifaceted role it is the most accessible basis for political mobilization a means of controlling power and resources in a transforming society and therapy for the great trauma suffered by individuals and groups under previous regimes This complexity helps explain the contradictory nature and outcomes of public ethnic policies based on a doctrine of ethno nationalism **After the Breakup of a Multi-Ethnic Empire** Susanne M. Birgersson, 2001-12-30 The relationship between the Russian Federation and the 14 non Russian successor states is unequal with Russia the dominant power This power imbalance is a hold over from the Soviet era in which the RSFSR was first among equals Empires like the Soviet one are specific types of political systems that differed from modern states The centralized multi ethnic and non democratic character of empires explains the continued dominance of the Russian Federation It also explains the absence of alternative economic arrangements and political contacts between the former republics The Soviet system was structured so as to establish Russian control over non Russian republics The political structure was centralized so that all decisions including investment production and distribution decisions were made in Moscow Economic planning dictated a complex network of production and distribution that rendered the former republics dependent on Russia in a variety of ways Soviet patterns of government administration and economic management are still evident in all the former republics Continued dependency on Russia has compromised the state building efforts of the former republics Political rhetoric trumpeting new foreign investment the expansion of diplomatic relations the signing of trade agreements and the imminent entrance into international organizations masks the fact that none of these new contacts have been able to replace the old Soviet production and distribution networks Scholars and students involved with comparative politics and Russian post Communist Studies will find the work of particular value *Sovereignty After Empire* Sally N Cummings, 2012-09-11 This is a unique systematic comparison of empires and of their consequences for sovereignty in the Middle East and Central Asia It brings theory on empire and sovereignty to bear on empirical variation across the two regions Kazakhstan - Ethnicity, Language and Power Bhavna Dave, 2007-09-13 Kazakhstan is emerging as the most dynamic economic and political actor in Central Asia It is the second largest country of the former Soviet Union after the Russian Federation and has rich natural resources particularly oil which is being exploited through massive US investment Kazakhstan has an impressive record of economic growth under the leadership of President Nursultan Nazarbaev and has ambitions to project itself as a modern wealthy civic state with a developed market economy At the same time Kazakhstan is one of the most ethnically diverse countries in the region with very substantial non Kazakh and non Muslim minorities Its political regime has used elements of political clientelism and neo traditional practices to bolster its rule Drawing from extensive ethnographic research interviews and

archival materials this book traces the development of national identity and statehood in Kazakhstan focusing in particular on the attempts to build a national state It argues that Russification and Sovietization were not simply top down processes that they provide considerable scope for local initiatives and that Soviet ethnically based affirmative action policies have had a lasting impact on ethnic lite formation and the rise of a distinct brand of national consciousness **After the USSR** Anatoly Michailovich Khazanov,1995 Khazanov s astute assessments of ethnic and political strife in Russia in Chechnia in Central Asia in Kazakhstan among the Meskhetian Turks and among the Yakut of Eastern Siberia illuminate the interconnections between nationalism ethnic relations social structures and political process in the waning days of the USSR and in the new independent states Exploring the Soviet nationality policy and its failure to satisfy national aspirations Khazanov demonstrates the fatal flaws of totalitarian rule and the impossibility of reforming it Khazanov cautions that the liberal democratic direction of current transformations in the former Soviet Union should not be taken for granted For most of the independent states he points out departing from totalitarianism requires creation of a civil society for the first time in their history The state s partial retreat from the public sphere leaves a dangerous institutional vacuum in which nationalism is emerging as the dominant ideology He warns that this new post totalitarian society is still a far cry from a genuine liberal democracy and despite its inherent instability may turn out to be a long lasting phenomenon **Nations, Conglomerates, and Empires** Branko Milanovic,1996
