After Spanish Rule Postcolonial Predicaments Of The Americas:

After Spanish Rule Mark Thurner, Andrés Guerrero, 2003-11-17 The first collection of essays to make a historically grounded specifically Latin Americanist intervention in postcolonial studies

After the Decolonial David Lehmann, 2021-12-08 After the Decolonial examines the sources of Latin American decolonial thought its reading of precursors like Fanon and Levinas and its historical interpretations In extended treatments of the anthropology of ethnicity law and religion and of the region s modern culture Lehmann sets out the bases of a more grounded interpretation drawing inspiration from Mexico Brazil Bolivia and Chile and from a lifelong engagement with issues of development religion and race The decolonial places race at the centre of its interpretation of injustice and together with the multiple other exclusions dividing Latin American societies traces it to European colonialism But it has not fully absorbed the uniquely unsettling nature of Latin American race relations which perpetuate prejudice and inequality yet are marked by m tissage pervasive borrowing and mimesis Moreover it has not integrated its own disruptive feminist branch and it has taken little interest in either the interwoven history of indigenous religion and hegemonic Catholicism or the evangelical tsunami which has upended so many assumptions about the region s culture The book concludes that in Latin America where inequality and violence are more severe than anywhere else and where COVID 19 has revealed the deplorable state of the institutions charged with ensuring the basic requirements of life the time has come to instate a universalist concept of social justice encompassing a comprehensive approach to race gender class and human rights

Postcolonial Sociology Julian Go, 2013-02-27 Postcolonial Sociology

The Columbian Covenant: Race and the Writing of American History James Carson, 2014-12-18 This provocative analysis of American historiography argues that when scholars use modern racial language to articulate past histories of race and society they collapse different historical signs of skin color into a transhistorical and essentialist notion of race that implicates their work in the very racial categories they seek to transcend

When Was Latin America Modern? N. Miller, S. Hart, 2007-04-02 Stemming from an interdisciplinary convention in 2005 at the Institute for the Studies of the Americas in London this collection has a strong thematic integrity but also illustrates the dramatic variety of approaches to the question of modernity This volume fills the gaps in prior literature on Latin America s experience of modernity

National Colors Mara Loveman, 2014 National Colors analyzes the politics and practices of official ethnoracial classification in the censuses of nineteen Latin American countries over nearly two centuries It shows that in addition to domestic politics the ways that states classify their citizens are strongly influenced by shifting international criteria for how to construct modern nations and promote national development

Transnational Frontiers of Asia and Latin America since 1800 Jaime Moreno Tejada, Bradley Tatar, 2016-08-19 Frontiers are wild The frontier is a zone of interaction between distinct polities peoples languages

ecosystems and economies but how do these frontier spaces develop If the frontier is shaped by the policing of borders by the modern nation state then what kind of zones regions or cultural areas are created around borders This book provides 16 different case studies of frontiers in Asia and Latin America by interdisciplinary scholars charting the first steps toward a transnational and transcontinental history of social development in the borderlands of two continents Transnationalism provides a shared focus for the contributions drawing upon diverse theoretical perspectives to examine the place making projects of nation states Through the lenses of different scales and time frames the contributors examine the social processes of frontier life and how the frontiers have been created through the exertions of nation states to control marginal or borderland peoples The most significant cases of industrialization resource extraction and colonization projects in Asia and Latin America are examined in this book reveal the incompleteness of frontiers as modernist spatial projects but also their creativity as sources of new social patterns new human adaptations and new cultural outlooks and ways of confronting power and privilege The incompleteness of frontiers does not detract from their power to move ideas peoples and practices across borders both territorial and conceptual In bringing together Asian and Latin American cases of frontier making this book points toward a comparativist and cosmopolitan approach in the study of statecraft and modernity For scholars of Latin America and or Asia it brings together historical themes and geographic foci providing studies accessible to researchers in anthropology geography history politics cultural studies and other fields of the human sciences

Intersections of Race, Class, Gender, and Nation in Fin-de-siècle Spanish Literature and Culture Jennifer Smith, Lisa Nalbone, 2016-09-01 This volume focuses on intersections of race class gender and nation in the formation of the fin de siècle Spanish and Spanish colonial subject Despite the wealth of research produced on gender social class race and national identity few studies have focused on how these categories interacted frequently operating simultaneously to reveal contexts in which dominated groups were dominating and vice versa Such revelations call into question metanarratives about the exploitation of one group by another and bring to light interlocking systems of identity formation and consequently oppression that are difficult to disentangle The authors included here study this dynamic in a variety of genres and venues namely the essay the novel the short story theater and zarzuelas These essays cover canonical authors such as Benito Pérez Galdós and Emilia Pardo Bazán and understudied female authors such as Rosario de Acuña and Belén Sárraga The authors included here study this dynamic in a variety of genres and venues namely the essay the novel the short story theater and zarzuelas The volume builds on recent scholarship on race class gender and nation by focusing specifically on the intersections of these categories and by studying this dynamic in popular culture visual culture and in the works of both canonical and lesser known authors

Transbordering Latin Americas Clara Irazábal, 2013-11-07 This book examines transborder Latin American sociocultural and spatial conditions across the globe and at different scales from gendered and racialized individuals to national and transnational organizations Gathering scholars from the spatial sciences architecture urban design urban

planning and geography as well as sociology anthropology history and economics the volume explores these transbordering practices of place making and community building across cultural and nation state borders examining different agents individuals ethnic and cultural groups NGOs government agencies that are engaged in transnational transborder living and city making practices reconceiving notions of state identity and citizenship and showing how subjected populations resist adapt or coproduce transnational transborder projects and in the process help shape and are shaped as transborder subjects
