History as a Science: The Philosophy of R.G. Collingwood Jan van der Dussen, 1981-10-31

1 COLLINGWOOD S RECEPTION

Collingwood's scholarly reputation is a complicated and variegated affair For one has not only to make a distinction between his reputation during his life and after his premature death in 1943 but also between his reputation as a philosopher and as an archaeologist and historian Collingwood himself considered philosophy as his primary occupation and his work in archaeology and history as that of an amateur This work however reached the highest standards and his contributions to archaeology and history have always been appreciated accordingly Though Collingwood's reputation as the main expert on Roman Britain in the period between the two wars remains unchallenged modern developments in this field have inevitably superseded his contributions and made them primarily voices from a past period Philosophy was the other half of Collingwood's scholarly life In his own thinking there was always a close relationship between philosophy and archaeological

and historical practice His interpreters have not always recognized this connection I have met archaeologists who were surprised to hear that Collingwood was a philosopher as well who either did not know that he had been a practising and philosophers archaeologist and historian or thought it no more than a private hobby Collingwood's reputation as a philosopher was very different from the one he gained in archaeology and history For in the philosophical climate at Oxford between the wars he was always an isolated figure **Social Work in a Risk Society** Stephen A.
