Age Of Gold Age Of Iron Renaissance Spain And Symbols Of Monarchy 2 Volume Set:

Age of Gold, Age of Iron Barbara Von Barghahn, 1985 *Handbook to Life in Renaissance Europe* Sandra Sider, 2005
Examines architecture and design dance fashion literature music philosophy religion theater and visual arts in Europe between 1300 and 1600 **A Gift of Angels** Bernard L. Fontana, 2010-09-20 It rises suddenly out of the Sonoran Desert landscape towering over the tallest tree or cactus a commanding building with a sensuous dome elliptical vaults and sturdy bell towers There is nothing else like it around nor does it seem there should be This incongruity of setting is what strikes first time visitors to Mission San Xavier del Bac This great church is of another place and another time while its beauty is universal and timeless Mission San Xavier del Bac is a two century old Spanish church in southern Arizona located just a few miles from downtown Tucson a metropolis of more than half a million people in the American Southwest A National Historic Landmark since 1963 the mission s graceful baroque art and architecture have drawn visitors from all over the world Now Bernard Fontana the leading expert on San Xavier and award winning photographer Edward McCain team up to bring us a comprehensive view of the mission as we ve never seen it before With 200 stunning full color photographs and incisive text illuminating the religious historical and motivational context of these images A Gift of Angels is a must have for tourists scholars and other visitors to San Xavier From its glorious architecture all the way down to the finest details of its art Mission San Xavier del Bac is indeed a gift of angels *Philip of Spain* Henry Kamen, 1997-05-29 This book published four hundred years after Philip s death is the first full scale biography of the king Placing him within the social cultural religious and regional context of his times it presents a startling new picture of his character and reign Drawing on Philip s unpublished correspondence and on many other archival sources Henry Kamen reveals much about Philip the youth the man the husband the father the frequently troubled Christian and the king Kamen finds that Philip was a cosmopolitan prince whose extensive experience of northern Europe broadened his cultural imagination and tastes whose staunchly conservative ideas were far from being illiberal and fanatical whose religious attitudes led him to accept a practical coexistence with Protestants and Jews and whose support for Las Casas and other defenders of the Indians in America helped determine government policy Shedding completely new light on most aspects of Philip s private life and in consequence on his public actions this book is the definitive portrayal of Philip II *Brill's Companion to Apollonius Rhodius* Theodore D. Papanghelis, Antonios Rengakos, 2008-11-15 This volume on Apollonius of Rhodes whose *Argonautica* is the sole full length epic to survive from the Hellenistic period comprises articles by eighteen leading scholars from Europe and America Their contributions cover a wide range of issues from the history of the text and the problems of the poet s biography through questions of style literary technique and intertextual relations to the epic s literary and cultural reception The aim of this 2nd edition is to give an up to date outline of the scholarly discussion in these areas and to provide a survey of recent and current trends in Apollonian studies which will be useful also to students of Hellenistic poetry in general **Emblemata Hispanica**

Pedro F. Campa, 1990 Emblem books books containing pictorial representations whose symbolic meaning is expressed in words were produced in great quantities and in numerous languages during the sixteenth and seventeenth centuries Because literary critics and art historians increasingly recognize the importance of the emblem in Renaissance and Baroque studies this book answers the need for a bibliography listing the locations of all known emblem books in Spanish as well as those translated into Spanish written by Spaniards in other languages and polyglot editions that contain a Spanish text Covered in this bibliography are all emblem books published from the beginning to the end of the Spanish Golden Age as well as a wide range of secondary sources on relevant subjects among them mythography paradoxography numismatics fetes funerals proverbs apothegms antiquarianism collecting and pertinent studies in art history and architecture Providing call numbers for library locations information on facsimile reprints and microform editions the work is extensively indexed by date and place of publication by printers and booksellers by authors and artists and by dedicatees as well as by subject *Age of Gold, Age of Iron. Renaissance Spain and Symbols of Monarchy. Vol. II. Plates* Barbara Von Barghahn, 1985 **Muqarnas**

Gülru Necipoğlu, 1994-08-01 Applied and Decorative Arts Donald L. Ehresmann, 1993 This reference work covers general works ornament folk art arms and armour ceramics clocks and automata costumes enamels furniture glass leather metalwork musical instruments textiles dolls and more Essentially a new work rather than a revision this annotated bibliography on the history of applied and decorative arts includes over 3000 descriptive entries on books written in western European languages More than 1000 of these entries are new to the second edition and approximately half are titles published since 1977 The remainder represent a significant expansion in breadth and depth of the bibliography with the addition of nearly 500 titles of exhibition and museum catalogues and price guides *Subject Guide to Books in Print*, 1975
