Martin,2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes *Media Capitalism* Thomas Klikauer,2022-01-01 This book argues that media and capitalism no longer exist as separated entities and posits three reasons why one can no longer exist without the other Firstly mass media have become indispensable to capitalism due to the media s ability to sell the commodities of mass consumerism Media capitalism also creates pro capital attitudes among a target population and establishes an ideological hegemony Thirdly media capitalism provides mass deception to hide the pathologies of capitalism which include mass poverty rising inequalities and the acceleration of global warming To illuminate this the book s historical chapter traces the emergence of media capitalism Its subsequent chapters show how media capitalism has infiltrated the public sphere society schools universities the world of work and finally democracy The book concludes by outlining how societies can transition from media capitalism to a post media capitalist society **Jury Selection** V. Visual Persuasion Paul Messaris, 1997 Paul Messaris is an extremely thoughtful commentator on the world of visuals He has studied advertising visuals for many years and his insights are always stimulating and sometimes even controversial This book makes an important contribution to the literature in two fields visual communication and advertising I recommend it for faculty and students as well as professionals in the advertising field Sandra Moriarty Professor University of Colorado With an informal writing style and examples both thoughtful and illustrative Paul Messaris in his Visual Persuasion leads the reader through the often complex field of visual literacy related to advertising images with high style and intellect When so much information is conveyed through quickly edited and carefully controlled mass media images Visual Persuasion is a vital book toward understanding the impact on individuals cultures and society of persuasive visual messages Paul Martin Lester Ph D Author of Visual Communication with Messages A smartly reasoned and elegantly written treatment of visual argumentation authored by one of America's most respected authorities on visual communication James Lull The pictures in TV commercials magazine ads and other forms of advertising often convey meanings that cannot be expressed as well or at all through words or music Visual Persuasion is an exploration of these unique aspects of advertising By virtue of their ability to simulate the appearance of the physical world pictures can become surrogate objects of desire or other emotions which ads subsequently associate with products By exploiting viewers assumptions of a direct automatic connection between photography and reality images can serve as proof of advertising claims Because of the implicit nature of visual argumentation and the relative lack of social accountability that images enjoy in comparison with words pictures can be used to make advertising claims that would be unacceptable if they were spelled out verbally Using these characteristics of visual persuasion as a starting point this important book analyzes a variety of commercial political and social issue advertisements A separate chapter examines the role of pictures in cross cultural

advertising Visual Persuasion is recommended for upper level undergraduate students and graduate students in communication and media studies It also contains insights that will be valuable to students in courses in cultural studies sociology anthropology and advertising The SAGE Encyclopedia of Business Ethics and Society Robert W.
