Digital Nomad Nation: The Rise of a Borderless Generation Carlos Grider, 2025-01-17 What if the next great nation had no borders, no government, and no fixed land, just a shared identity and a global movement? In *Digital Nomad Nation*, Carlos Grider explores how millions are unknowingly creating the first digital country without borders, governments, or fixed territories, one that exists entirely online yet spans the globe. Today, over 35 million digital nomads live, work, and move freely across borders, creating a decentralized nation unlike anything the world has seen. And what does it mean for the future of work, travel, and global society? This groundbreaking investigation explores how millions are leaving traditional careers behind to design their dream lives on their own terms.
