Go Green Or Go Home Logan J. Davisson, 2019-09-16 Plastic free living is no new trend but already for several decades a topic which is discussed in the retail trade among environmentalists and world do gooders For decades people have been fighting against mountains of rubbish and the topic of recycling and waste avoidance has been on the agenda for a long time The fact is that dealing with plastic is a central issue in our everyday lives because we deal with plastic on a daily basis and have many plastic objects in operation every day The packaging waste generated in a week often filled more than one yellow sack The question we ask ourselves is whether this waste should not actually be reduced or avoided Plastic waste that does not arise in the first place does not have to be disposed of and recycled The annoying thing about plastic waste is that it pollutes both the landscape and the seas The damage caused is not only visual but also natural Sea animals can die by absorbing plastic remains and the pollution of the oceans by plastic waste ultimately leads to littering of the beaches which are visited by tourists in summer A small step for example is to think about transporting your purchases before going to the supermarket The choice of goods is also crucial as it avoids the need for cumbersome outer packaging directly on the supermarket shelf Thinking holistically about plastic packaging gives pleasure and more meaning to life Who really decides to live plastic free or at least to avoid plastic shows itself as a protector of the environment and secures the habitats for future generations Research shows that customers are generally aware that plastic is harmful and that it is better to buy goods that do not need much outer packaging Living plastic free can be an enrichment for the whole family and can also have a positive impact on attitudes

[Life Without Plastic](#) Jay Sinha, Chantal Plamondon, 2017-12-12 After the birth of their son Jay Sinha and Chantal Plamondon set out on a journey to eliminate plastic baby bottles as the Canadian government banned BPA When they found it was difficult to procure glass baby bottles Jay and Chantal made it their mission to not only find glass and metal replacements for plastic but to make those products accessible to the public as well Printed on wood free FSC sustainable certified paper and with BPA free ink Life Without Plastic strives to create more awareness on the issue of BPA polycarbonates and other single use plastics and provides readers with safe reusable and affordable alternatives While plastic has its uses in technology medical and some products around the home certain single use plastics release chemicals when put in contact with food and water These disposable plastics are also found in produce and cleaning products Jay and Chantal show readers how to analyze their personal plastic use find alternatives and create easy replacements in this step by step guide Get your family healthier spread consciousness and create positive reflection on you for helping the environment by taking action
