A Century Of Excellence Burns McDonnell:

A Century of Excellence Jack Cashill, Burns & McDonnell, 1998 **A River in the City of Fountains** Amahia K. Mallea, 2018-10-15 Founded as a port at the confluence of two great rivers Kansas City has the waters of the Missouri running through its bloodstream threading expressways delivering drinking water carrying traffic and sewage and emerging most visibly in the city's celebrated fountains Despite or perhaps because of the river's ubiquity the complex and critical nature of its presence can be hard to understand which is precisely why Amahia Mallea's enlightening book is so essential Moving from the city's center to the outer limits of the metropolitan area *A River in the City of Fountains* offers a clear view of the reach and intricacies of the Missouri River's connection to life in Kansas City The history of this connection is one of science and industry working sometimes at cross purposes to bend the river to the needs of commerce and public health It is a story populated with heroes and villains visionaries and robber barons scientists and civil engineers politicians and activists all with schemes and plans and far reaching ideas about what and whose demands the power of the Missouri should serve And so inevitably it is a story of disparities a story of from one flood to the next the haves staking out higher ground leaving the have nots to the perils of low lying land But what the book also shows us is a slow awakening to the ways in which all those vying for the river's favor are inextricably connected by its course here we see finally a growing awareness of the river's essential role in the health and welfare of the whole urban environment In the end all citizens of Kansas City are both upstream and downstream all are equally dependent on the health of the river What this book helps us see is at last as much the city in the river as the river in the city **St. Louis Commerce**, 1998 *2015 U.S. Higher Education Faculty Awards, Vol. 1* Faculty Awards, 2015-11-30 FacultyAwards.org is the first and only university awards program in the United States based on faculty peer evaluation Faculty Awards was created to recognize outstanding faculty members as viewed by their Faculty peers at colleges and universities across the United States Faculty members voted through the 2014-2015 academic year for their peers at their academic departments and schools within a number of categories Access to FacultyAwards.org to nominate and vote for Faculty was limited to university professors or faculty members at accredited U.S. institution of higher education Faculty members were nominated and voted for by other faculty members in their own academic departments and schools We strove to maintain an accurate peer review process Voting was not open to students or the public at large In addition faculty members voted for educators only at their own college or university Winners for the 2014-2015 academic year in all departments and colleges across U.S. institutions of higher education were announced in March 2015 and are permanently archived at FacultyAwards.org as well as recognized in this 2015 print edition of the Faculty Awards Compendium For the academic year 2014-2015 votes were cast to nominate and vote for Faculty members and no self voting was allowed to assure the integrity of the whole process This volume of the Faculty Awards Compendium includes Faculty awardees within Fine Arts Humanities Liberal Arts and Social Sciences Disciplines for the 2014-2015 academic year A total

of 1608 winning Faculty members in 584 higher education institutions were determined after tallying the votes We would like to thank all Faculty members who participated in the voting process and to wish all the Faculty awardees continued success in their academic endeavors We look forward to resuming the voting process for the 2015 2016 academic year awards
