Exercising regularly is good for both your physical and mental health. Just 30 minutes a day is all it takes! Even smaller amounts of exercise can still provide health benefits, so it's important to find a routine that works for you and fits into your lifestyle.

Using relaxation skills such as breathing & guided imagery can reduce feelings of anxiety and stress. Try the 4-7-8 breathing technique to help you relax.

Lean on friends, family, or support groups. They will help combat the stress and emotions while also giving perspective.

Engage in what makes you happy! Reading, baking, painting, listening to your favorite song, watching TV, spending time with your pet, and doing an activity you love to help reduce stress.

Although this new era of education is marked by innovation at all levels, most of these changes have not been thoroughly planned or structured, thus creating a difficult experience for all the educational stakeholders. *Impact of Digital Transformation in Teacher Training Models* conducts a critical discussion on teacher preparedness in the digital transformation of teaching practices. It promotes practitioner reflections on the role of institutional policies, teacher digital literacy, the digital divide, and how the ongoing digital transformation of society will induce the need for a paradigm shift in teacher training models. Covering topics such as emergency remote education, emerging pedagogies, and massive open online courses, this book is an essential resource for policymakers, government officials, education administration, pre-service teachers, educators, researchers, and academicians.
