A Ceramic Sequence From The Pyramid Of The Sun Teotihuacan Mexico:

A Ceramic Sequence from the Pyramid of the Sun, Teotihuacan, Mexico Robert Eliot Smith, 1987 This volume dates the constructional development of the Pyramid of the Sun by means of the associated ceramic material from the excavations and presents a comprehensive analysis of the pottery and ceramics found at the site The Maya and Teotihuacan Geoffrey E. Braswell, 2004-03-01 Debate has been fierce about the date and extent of influence of the central Mexican culture of Teotihuacan on the Maya This volume which aims to bring the debate up to date comprises thirteen essays that draw on recent archaeological evidence particularly burials and ceramic assemblages to recreate the region's ethnicity during the Early Classic period Evidence of interaction is also found in carved monuments and architectural design Includes an extensive bibliography **Teotihuacan and Early Classic Mesoamerica** Claudia García-Des Lauriers, Tatsuya Murakami, 2022-02-14 The Early Classic period in Mesoamerica has been characterized by the appearance of Teotihuacan related material culture throughout the region Teotihuacan known for its monumental architecture and dense settlement became an urban center around 100 BC and a regional state over the next few centuries dominating much of the Basin of Mexico and beyond until its collapse around AD 650 Teotihuacan and Early Classic Mesoamerica explores the complex nature of Teotihuacan's interactions with other regions from both central and peripheral vantage points The volume offers a multiscale view of power and identity showing that the spread of Teotihuacan related material culture may have resulted from direct and indirect state administration colonization emulation by local groups economic transactions single event elite interactions and various kinds of social and political alliances The contributors explore questions concerning who interacted with whom what kinds of materials and ideas were exchanged what role interregional interactions played in the creation transformation and contestation of power and identity within the city and among local polities and how interactions on different scales were articulated The answers to these questions reveal an Early Classic Mesoamerican world engaged in complex economic exchanges multidirectional movements of goods and ideas and a range of material patterns that require local regional and macroregional contextualization Focusing on the intersecting themes of identity and power Teotihuacan and Early Classic Mesoamerica makes a strong contribution to the understanding of the role of this important metropolis in the Early Classic history of the region The volume will be of interest to scholars and graduate students of Mesoamerican archaeology the archaeology of interaction and the archaeology of identity Contributors Sarah C Clayton Fiorella Fenoglio Limón Agapi Filini Julie Gazzola Sergio Gómez Chávez Haley Holt Mehta Carmen Pérez Patricia Plunket Juan Carlos Saint Charles Zetina Yoko Sugiura Gabriela Uruela Gustavo Jaimes Vences *Ancient Teotihuacan* George L. Cowgill, 2015-04-06 Long before the Aztecs and 800 miles from Classic Maya centers Teotihuacan was part of a broad Mesoamerican tradition but had a distinctive personality This book synthesizes a century of research including recent finds and covers the lives of commoners as well as elites **The Cambridge History of the Native Peoples of the Americas**

Bruce G. Trigger, Wilcomb E. Washburn, Richard E. W. Adams, Murdo J. MacLeod, Frank Salomon, Stuart B. Schwartz, 1996

Teotihuacan Evelyn Childs Rattray, 2001 The ultimate reference on the ceramic typology and chronology of Teotihuacan throughout the sequence of the city's occupation Abundantly illustrated with drawings and photographs Accompanying color photographs available electronically Complete text in Spanish and English Olmec to Aztec Barbara L. Stark, Philip J. Arnold, 2022-09-06 Archaeological settlement patterns the ways in which ancient people distributed themselves across a natural and cultural landscape provide the central theme for this long overdue update to our understanding of the Mexican Gulf lowlands Olmec to Aztec offers the only recent treatment of the region that considers its entire prehistory from the second millennium B C to A D 1519 The editors have assembled a distinguished group of international scholars several of whom here provide the first widely available English language account of ongoing research Several studies present up to date syntheses of the archaeological record in their respective areas Other chapters provide exciting new data and innovative insights into future directions in Gulf lowland archaeology Olmec to Aztec is a crucial resource for archaeologists working in Mexico and other areas of Latin America Its contributions help dispel long standing misunderstandings about the prehistory of this region and also correct the sometimes overzealous manner in which cultural change within the Gulf lowlands has been attributed to external forces This important book clearly demonstrates that the Gulf lowlands played a critical role in ancient Mesoamerica throughout the entirety of pre Columbian history Mesoamerican Archaeology Julia A. Hendon, Lisa Overholtzer, Rosemary A. Joyce, 2021-03-30 A unique and wide ranging introduction to the major prehispanic and colonial societies of Mexico and Central America featuring new and revised material throughout Mesoamerican Archaeology Theory and Practice Second Edition provides readers with a diverse and well balanced view of the archaeology of the indigenous societies of Mexico and Central America helping students better understand key concepts and engage with contemporary debates and issues within the field The fully updated second edition incorporates contemporary research that reflects new approaches and trends in Mesoamerican archaeology New and revised chapters from first time and returning authors cover the archaeology of Mesoamerican cultural history from the early Gulf Coast Olmec to the Classic and Postclassic Maya to the cultures of Oaxaca and Central Mexico before and after colonization Presenting a wide range of approaches that illustrate political socio economic and symbolic interpretations this textbook Encourages students to consider diverse ways of thinking about Mesoamerica as a linguistic area as a geographic region and as a network of communities of practice Represents a wide spectrum of perspectives and approaches to Mesoamerican archaeology including coverage of the Postclassic and Colonial periods Enables readers to think critically about how explanations of the past are produced verified and debated Includes accessible introductory material to ensure that students and non specialists understand the chronological and geographic frameworks of the Mesoamerican tradition Discusses recent developments in the contemporary theory and

practice of Mesoamerican archaeology Presents new and original research by a team of internationally recognized contributors Mesoamerican Archaeology Theory and Practice Second Edition is ideal for use in undergraduate courses on the archaeology of Mexico and Central America as well as for broader courses on the archaeology of the Americas **Human Sacrifice, Militarism, and Rulership** Saburo Sugiyama, 2005-03-10 Teotihuacan was one of the earliest and more populous preColumbian cities and the Feathered Serpent was its vital monument erected circa 200 AD This work explores the religious meanings and political implications of the pyramid with meticulous and thorough analyses of substantially new excavation data Challenging the traditional view of the city as a legendary sacred or anonymously governed centre the book provides significant new insights on the Teotihuacan polity and society It provides interpretations on the pyramid s location architecture sculptures iconography mass sacrificial graves and rich symbolic offerings and concludes that the pyramid commemorated the accession of rulers who were inscribed to govern with military force on behalf of the gods This archaeological examination of the monument shows it to be the physical manifestation of state ideologies such as the symbolism of human sacrifice militarism and individual centred divine authority ideologies which were later diffused among other Mesoamerican urban centres
